Awesome start of a new series Von Emmi RWow this book was different and unique in an awesome way. I was hooked right from the first pages. I didn't know what to expect from this book, I've only read the blurb otherwise I went in blind and that is exactly how you need to experience 'A Little Faith'. What actually happened on that island? I have so many stories I've missed out on. I only played one story over and over in my head. It was only one chapter when there are so many more. As the story unfolds we are introduced to this exceptional group of friends and you just feel how much they care about each other. They have been through so much, are still dealing with the aftermath but always stick together. I loved the friendship this brotherhood shares, one of the best group of friends I've ever read about, so heartwarming. But there is romance too, a heartbreaking and sweet love story I didn't see coming

Kurzbeschreibung The Men Of Ocean Beach is a second chance series full of emotion and laugh out loud moments. Faith Reed lost so much when she was fifteen years old. She hid from life. Six years later she's determined to give back and to move forward. Five tattooed men are waiting for Faith and her brother Chance to arrive in Ocean Beach so that they can say their goodbyes. What happens when Faith reunites with these men and is confronted by their own secrets they have kept hidden from her? I won't lie, you might cry and you might also laugh out loud. A Little Faith is full of emotion, surprises and twists and some pretty gorgeous men and a cast of sub characters you will adore. Take a chance on this adult contemporary romance, because sometimes all you need is a little faith. Reader Note: This is a mature aged new adult/adult contemporary romance which contains graphic sexual content for the 18+ reader. PRAISE FOR A LITTLE FAITH 6 Star Wow ! Wow ! Wow!
