Can Write Erotica Like Brad Tanner...Von Customerand its not only because his writing NEVER fails to excite and arouse. Its also because his stories, despite being so thrilling, are movingly realistic and easy to relate to.This episode is arguably the hottest of all Tanners pieces. His sex scenes are galvanising and suspenseful. At the same time the level of detail they achieve make them believable to the point of being touching, but never sentimental. Tanner has a great ability to create the sense of place and the illusion of presence. His descriptions and dialogues are vivid, humorous and memorable. His protagonist has a quirky inner world, where lust goes hand in hand with existential musings.Combine all these ingredients and what you get is a piece of art and a unique voice in the world of M/M erotica.
