one. It is incredible! Morgan and Serenity are wonderful. I love the scene where she's waiting for him in the cabin and the one where she's with Stanley and their baiting Morgan! What a hoot. I don't think I've ever laughed harder or enjoyed anything more. I've always been partial to pirate books anyway and this one is more than exceptional in that area. The plotting is rich and seamless and like watching Raiders of the Lost Arc it leaves you breathless and on the edge of your seat just waiting to see what's on the next page. It was just so different and creative, just when I thought I knew what to expect, the author surprised me again and again. The characters are all so expertly drawn that you know each and every one of them. you really get a feel for the time and setting. This book is destined to become a pirate classic!

This book had an interesting spin on the old pirate kidnaps woman theme. I really liked the way Serenity could keep Morgan at bay while still being feminine and strong and I really liked the way Morgan could be both fierce and yet respectful. Her characters were complex and complete. Definitely a nice change of pace.

I really enjoyed this book. Although, if you haven't read this or Master of Seduction, read 'Master..' first. 'A Pirate..' is the sequel to 'Master..' Jake's story is first then Morgans. Serenity wanted adventure and she got it. She is abducted and taken to Morgan's ship. The attraction is there but things go awry when Morgan semi-seduces her. I didn't think she had any right to hold herself completely blameless but she did. She was very unforgiving and at times ridiculous. Nevertheless, Morgan understood. This is a good story if at times frustrating. At first I didn't like Jake but I warmed up to him near the end. If you like pirate stories, don't miss this one. My favorite pirate story still remains 'Gentle Rogue' by Johanna Lindsey.

Kurzbeschreibung  
Few know Morgan Drake's true name but many fear the Sea Wolf, the scourge of the ocean, a fearless pirate who frees impressed American sailors from British vessels. Now a beautiful reporter is willing to risk her life, her innocence, and her heart to reveal the secrets that Morgan is determined to protect at any cost . . . A headstrong and courageous young woman in a man's world, Serenity James knows she is barely tolerated in her father's newspaper office. An exclusive story about the dreaded Sea Wolf, however, will earn her the respect she so fervently desires. But she never expected to be kidnapped by the sexy and dangerous brigand whose bold exploits have fired her imagination or to discover the adventure she's always longed for in Morgan Drake's passionate caress.
