Unterhaltung. Jedoch hat es auch keine 5 Sterne verdient, denn herausragend und exzellent ist es wiederum auch nicht. Es geht darum, dass Jill die Sicherheitschefin ist, die eine streng geheime Testanlage absichern soll und sich dabei in Cody verliebt, der medizinische Experte vor Ort. Allerdings hat er noch Kontakte zu einem Pharma-Unternehmen und sie ist sich nicht sicher, ob er nicht andere Ziele verfolgt, als das Gelingen des Projektes. Als dann noch ein geheimnisvolles neues Virus ausbricht und scheinbar zusammenhanglos zuschlägt, scheinen sich die Verdachtsmomente gegen Cody zu verdichten....oder? Wie gesagt: Gute, solide Unterhaltung für gemtlich Herbstabende, nichts Bahnbrechendes. Etwas irritierend wirkt auch, dass mit diesem Buch die Hintergrundhandlung für eine neue Serie ausgebreitet wird. Daher werden jede Menge Nebendarsteller eingeführt und breitest vorgestellt, um dann aber in der Luft hängen zu bleiben bzw. einfach nicht mehr weiter erwähnt zu werden.

Kurzbeschreibung U.S. Army Major Jill Bradshaw was used to giving orders, not taking them so when she met brusque Commander Cody Richardson, the medical officer in charge of her top secret mission, she was a little taken aback. Of course she was also taken with him a problem, because despite his sterling credentials, she wasn't exactly sure who he was. Or where he came from Cody had always maintained military and medical protocol at all costs, and he wasn't about to stop now which meant a hands-off policy as far as a certain lovely army major was concerned. But it was all for the best, Cody told himself. He had secrets to keep and they were best kept at a distance. She was best kept at a distance.
