Masterfully Researched, Conceived, Woven and DeliveredVon David S. BerryThis work, the fourth in "The Galway

Chronicle" series, has afforded me a much deeper understanding of "things Irish" in the 19th century. Frankly, I could have gleaned much information from textbooks or historical treatises. But this series goes deeper: it incarnates the history. My daily encounters with Joseph Burke have encouraged me to more deeply consider the challenge and possibility of squaring off against today's rampant and relativist postmodern mindset with truly biblical moral courage, compassion, and Christlikeness. So sorry to see this series completed; I would devour more.0 von 0 Kunden fanden die folgende Rezension hilfreich. An excellent finaleVon BH HarrisAll Rivers to the Sea was a wonderful way to end the Galway Chronicles. Once more I was moved to laughter and tears as I followed the lives of the people of Ballyknockanor. Martin's character was fleshed out nicely, Corrie and Ceili's story made a heart wringing sub-plot, and Mad Molly was as wise, humorous, and prophetic as ever. Though it's nice to think of Kate and Joseph living "happily ever after," I would love it if the authors would continue this story in a different series as they have done with their Zion sagas.0 von 0 Kunden fanden die folgende Rezension hilfreich. The conclusion to The Galway ChroniclesVon Ein Kunde"All Rivers to the Sea," the fourth and final book in The Galway Chronicles, neatly ties together the loose ends from the first three books. Kate and Joseph struggle to survive and keep their tenants alive as the potato crops rot, seemingly over night, and in the end, they are victorious. While book 2 will always be my favorite, I enjoyed book 4. It gave me a greater understanding of what my Irish ancestors went through as they struggled to maintain their faith in a harsh land.

KurzbeschreibungWestern Ireland rejoiced in October 1844 because the potato crop was the best it had been. But by the next year, the Irish would see the potato blight destroy the crops and thousands will die of starvation. Soon a great migration to America would begin as the hopelessness of the situation finally sinks in. In this fourth and final book of the Galway Chronicles, the story of Kate, Joseph, and the inhabitants of the village of Ballyknockanor continues with Joseph's dramatic return to his estate and the beginning of the terrible years of the Irish potato famine.KurzbeschreibungWestern Ireland rejoiced in October 1844 because the potato crop was the best it had been.
