My Score: 4 Stars
This is the 4th book in the TerraMates Series I've read, it was a good read but not as good as the ones before, but even saying that I wouldn't have wanted to miss this book. Ms. Lace's characters were right on and the plot was excellent, as usual her words flowed page by page but still I felt that something was missing. What's missing you tell me? I really can't figure it out. The only thing I know for certain is I couldn't figure out who was the Alpha's Enslaved Bride? Quinn Maloney has to get away from Earth because she has visions of the future. Some visions she tried to help the people that she saw dying. No one believes her until someone dies, then she's called a freak, a witch, they bullied her, through eggs on her she tried to hide she tried everything so she left town with her dad. Wouldn't you know the Sons of the Heavenly Father, (man doesn't that sound like peace-loving people). They followed her almost succeeding in kidnapping her but her dad and the police saw it, started running but the kidnappers ran away. Airik Buhari is the Director of the Precog Division, on the Planet Koccoran which he worked very hard to rise up in the ranks. He was a workaholic spending days with no sleep because he loved his job, he was going to lose it all because he has not married before his The Akuna. His brother told him about some crazy idea about TerraMates and it was crazy but what did he have to lose he didn't want to lose his job he had to do it so marry a complete stranger he did. When he went to pick her up from the space station from Earth he couldn't believe his eyes she was beautiful oh God this is going to be a long year. I was gifted this ARC for an honest and truthful review.

Kurzbeschreibung
Knowing the future isn't a blessing. It's a curse. Especially when you've seen your death. I'm going to die in the arms of someone I have never seen before. He's a person I will love, but I don't know anything about him. When TerraMates matched me with Airik, I couldn't believe it. This sexy alien could see the future, just like me. I wasn't alone anymore. I quickly found out he knows nothing about Earth or humans. I married him, but will I be safe with him? I didn't foresee I would want to feel his hands on my body. I've never been able to change the future before. For us to survive, I need to.
