Von Sarah Masters : Always (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Always (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Always - aber nicht fr michVon B. WissnerGleich vornweg: ich habe gemischte Gefhle, dieses Buch betreffend.Das Buch ist aus Steve's Sicht geschrieben.Steve hat mit seinem Freund, mit dem er seit ca. 2 Jahren zusammenlebt, Schluss

gemacht. Und er leidet, sehr. Zwischen den Kapiteln, in denen er sich seinem Elend hingibt, sind immer wieder Rückblenden, wie die Beziehung zu Christopher begann und sich entwickelt hat. Steve hat - seiner Ansicht nach - die besten Gründe für die Beendigung der Beziehung, und hier ist mein Problem: ich kann mit Märtyrern auch im wirklichen Leben nicht viel anfangen. Der tatsächliche Grund, der zu Steve's Entscheidung geführt hat, erschliesst sich erst im letzten Drittel des Buches; vorher sind alles nur Steve's Reflektionen über das, was er glaubt, richtig interpretiert zu haben. Wenn Steve in dem entscheidenden Moment nicht "edel", sondern neugierig gewesen wäre, wäre sowohl das Drama als auch das Buch berflüssig. Die Geschichte ist nicht schlecht geschrieben, aber für meinen Geschmack einfach zu gefühlsbeladen. Sorry.

Kurzbeschreibung Always by Sarah Masters Sometimes you have to suffer in order to make the one you love happy Steve eavesdrops on a phone conversation and his whole world crashes around him. He hears something he never wanted to hear and knows his lover, Christopher, will be giving him some bad news. Two weeks go by, and with no news, no devastating upset coming his way, Steve decides to end their relationship to save Christopher the guilt of doing it himself. Lost in a sea of confusion, Steve tries to push himself back into the single game, only to find memories and his love for Christopher just went away. Alcohol and bars only make his loneliness more apparent and, shoving his pride aside, he visits Christopher in order to make things right between them again. However, there's more to that phone call than Steve had imagined, and even though he'd caused their break up to save Christopher hurting, he begins to realise that he's caused them both more pain than they could have ever imagined.

Sarah Masters About the Author: Sarah Masters is a multi-published author in three pen names writing several genres. She lives with her husband, children, and three cats in an English village. She writes full time and is also a cover artist and blog designer. In another life she was an editor. Her other pen names are Natalie Dae and Charley Oweson.
