**Von H.M. Lynn : Amendments (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Amendments (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A superb debut!Von luceThis book is amazing! The first person narrative from Em's perspective guides us through the tough

decisions she and her family must make to survive, and to thrive. Played with a small cast, we get to know the characters intimately, and their trials are portrayed in such vivid detail to truly captivate the reader. I'd love to read a follow up to *Amendments*, or anything else from this talented author, and can highly recommend the book.

Kurzbeschreibung  
Emelia must choose. Her sister or her soulmate. In a world not dissimilar to our own, the Administration have ensured that the human race should not have to live with any regrets. Like millions before her, Emelia now has the chance to go back and make the 'correct' decisions. The little envelope that contains her amendment will change not just her life, but that of the people she loves the most. Her sister Finola, whose reckless and self-destructive nature have lead her dangerously close to the sinister Marchers movement; and Gabe, the rock that has been holding the remnants of her family together for as long as she can remember. Caught between saving Finola or happiness with Gabe, she must struggle to predict how the ripples of her amendments will spread. Two envelopes, two choices, one life. What would you amend?  
Praise for *Amendments*: "A delightful read with an intricate and intriguing plot line, lovable characters and quite simply un-put-down-able!" "A very impressive and accomplished debut novel." "Amendments is beautifully and eloquently written, with interesting, convincing characters, and the concept at the heart of it brings up questions of fate, free will and how much control we have - or want - over our lives that make you stop and think." "Very much in the spirit of Aimee Bender, Kazuo Ishiguro and Mitch Albom."
