Aufsatz, sffig geschrieben und kostet fast nichts. Deshalb doch drei Sterne.Kade ist der Erbe des Redwood-Werwolf-Packs, 106 Jahre alt und ohne feste Beziehung. Melanie ist 25 Jahre alt, soeben mit ihrer akademischen Ausbildung fertig und ebenfalls Single. Auf Betreiben von gemeinsamen Freunden treffen sie sich zu einem Date, das in einer rauschenden gemeinsamen Nacht endet. Kade riecht seine Lebensgefährtin in Melanie, sie will Karriere machen. Und die Geschichte endet so wie immer bei Alpha-Werwölfen.Trivialer geht es kaum. Einzig der (e)manzipatorische Charakter von Kade passt nicht wirklich. Die Autorin macht es sich zu einfach.

KurzbeschreibungMelanie is a twenty-five year old chemist who has spent all of her adult life slaving at school. With her PhD in hand, she's to start her dream job, but before she does, her friend persuades her to relax and try to live again. A blind date set up through her friends seems like the perfect solution. Melanie can take one night away from the lab and let her inner vixen out on a fixed blind date - a chance to get crazy with a perfect stranger. The gorgeous hunk she's to meet exceeds her wildest dreams but he is more than what he appears and Melanie's analytical mind goes into overdrive.Kade, a slightly older werewolf (at over one hundred years), needs a night way from the Pack. Too many responsibilities and one near miss with a potential mate made Kade hide in his work, the only peace he can find. His brother convinces him to meet the sexy woman for a one night of fun. What could it hurt? But when he finds this woman could be his mate, can he convince her to leave her orderly, sane world and be with him and his wolf-half, for life?KurzbeschreibungMelanie is a twenty-five year old chemist who has spent all of her adult life slaving at school.
