Von Sabaa Tahir : An Ember in the Ashes (An Ember in the Ashes, Book 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised An Ember in the Ashes (An Ember in the Ashes, Book 1):

KundenrezensionenHilfreichste Kundenrezensionen1 von 2 Kunden fanden die folgende Rezension hilfreich. A wonderful new novel!Von KaitlynI cannot even describe how much I loved this book. After a long while I had started reading again and by chance I found this book and decided to read it. I have to admit that in the beginning I was very shocked by the brutality of the political system, but I had learned Latin in school, so I have to say that it is very close

to reality in the Roman Empire. And very soon the story had me all in, so I recommend this to anyone who loves fantasy novels! Although I would raise the age level to 16, even older actually!

1 von 2 Kunden fanden die folgende Rezension hilfreich. quite captivating but comparing this book to A song of ice and fire series is a pretty big overstatement.

Von Victor Neamtu The world built is fascinating and somewhat original. The action is fast paced and mostly unpredictable. The characters are complex and intriguing, but I feel like I am hungry for more details about so many of them. The fact that it's written from only two perspectives makes it a bit dull and at times you are very tempted to skip over Laias chapters because Elias's are most of the time more exciting and often end with cliffhangers.

Overall a very enjoyable read, but the world portrayed pales in comparison to that of George R R Martin. (I'm only mentioning this because I've read articles saying that this series would be the new Game of Thrones, but alas it feels far from it).

0 von 1 Kunden fanden die folgende Rezension hilfreich. A page turner!

Von Patichul Utterly entertaining book! For those who like a fun adventure book once in a while. I am no longer a 'Young adult' but still enjoyed the book very much. It's at the end a story of being tested by life and discovering yourself, you are never too old for that!

Kurzbeschreibung Tahir spins a captivating, heart-pounding fantasy

Us Weekly Read the explosive New York Times bestselling debut that's captivated readers worldwide. Set to be a major motion picture, *An Ember in the Ashes* is the book everyone is talking about. What if you were the spark that could ignite a revolution? For years Laia has lived in fear. Fear of the Empire, fear of the Martials, fear of truly living at all. Born as a Scholar, she's never had much of a choice. For Elias it's the opposite. He has seen too much on his path to becoming a Mask, one of the Empire's elite soldiers. With the Masks' help the Empire has conquered a continent and enslaved thousands of Scholars, all in the name of power. When Laia's brother is taken she must force herself to help the Resistance, the only people who have a chance of saving him. She must spy on the Commandant, ruthless overseer of Blackcliff Academy. Blackcliff is the training ground for Masks and the very place that Elias is planning to escape. If he succeeds, he will be named deserter. If found, the punishment will be death. But once Laia and Elias meet, they find that their destinies are intertwined and that their choices will change the fate of the Empire. In the ashes of a broken world one person can make a difference. One voice in the dark can be heard. The price of freedom is always high and this time that price might demand everything, even life itself.
