Von Ann Leckie : Ancillary Justice: THE HUGO, NEBULA AND ARTHUR C. CLARKE AWARD WINNER (Imperial Radch Book 1) (English Edition)

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ancillary Justice: THE HUGO, NEBULA AND ARTHUR C. CLARKE AWARD WINNER (Imperial Radch Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Ungewöhnlich, interessant, lesenswertVon SebbaaDer Hauptcharakter ist wirklich Interessant. Die Welt ist Interessant. Die Autorin hlt ihren Leser nicht fr Dumm und beruht einen nicht mit unnötiger Exposition. Ich habe dieses Buch und die beiden Sequels verschlungen.4 von 5 Kunden fanden die folgende Rezension hilfreich. Top notchVon deermountainI read this book almost in one go and am about to order the next - it's that addictive and good. It reminds me of both the Vorkosigan Saga and Iain M. Banks's Culture series - similar style, similar sensibilities (in terms of ethics and gender politics, especially) - but also of some of the better YA dystopias like "The Hunger Games". Why? The setting is definitely dystopian, and an all powerful state is the main enemy, and the hero is a single person opposed to this regime. Not a teenager but a corpse soldier with the mind of spaceship, but still, Breq, the protagonist, is still in the process of becoming a person, so I think there is a definite coming of age vibe to it.1 von 2 Kunden fanden die folgende Rezension hilfreich. Einfach einfalllos und extrem langweiligVon BcherfreundMir ist der Lobgesang auf dieses Buch vllig unverständlich. Es ist ein uerst langweiliges Buch. Die Möglichkeiten, die in der Story stecken, die künstliche Intelligenz, das dargestellte Universum sind flach und einfaltslos. Dieses Buch mit dem Wstenplaneten zu vergleichen, ist wie einen Grashalm mit einer Palme vergleichen zu wollen. Aber auch im Vergleich mit anderen Spaceoperas, wie z.B. Halmilton, ist das Buch einfach nur schwach.

KurzbeschreibungThe record-breaking debut novel that won every major science fiction award in 2014, Ancillary Justice is the story of a warship trapped in a human body and her search for revenge. Ann Leckie is the first author to win the Arthur C. Clarke, the Nebula and the Hugo Award for Best Novel in the same year.They made me kill thousands, but I only have one target now.The Radch are conquerors to be feared - resist and they'll turn you into a 'corpse soldier' - one of an army of dead prisoners animated by a warship's AI mind. Whole planets are conquered by their own people. The colossal warship called The Justice of Toren has been destroyed - but one ship-possessed soldier has escaped the devastation. Used to controlling thousands of hands, thousands of mouths, The Justice now has only two hands, and one mouth with which to tell her tale. But one fragile, human body might just be enough to take revenge against those who destroyed her.'ENGAGING AND PROVOCATIVE' SFX Magazine'UNEXPECTED, COMPELLING AND VERY COOL'John Scalzi'HIGHLY RECOMMENDED'Independent on Sunday'MIND-BLOWING'io9.com'THRILLING, MOVING AND AWE-INSPIRING'Guardian'UTTER PERFECTION'The Book Smugglers'ASTOUNDINGLY ASSURED AND GRACEFUL'Strange Horizons'ESTABLISHES LECKIE AS AN HEIR TO BANKS'Elizabeth BearPressestimmenThrilling, moving and awe-inspiring (Guardian)Signals the arrival of a hard science fiction author who just might fill the gap left by Iain M. Banks. Ancillary Justice is a highly original novel . . . an intelligent slow-burner. Highly recommended (Independent on Sunday)You will be truly astounded at how Leckie has fully fleshed out a universe and is asking and attempting to answer the difficult questions that many authors never even address in science fiction (Buzzfeed)Unexpected, compelling and very cool - Ann Leckie nails it. I've never met a heroine like Breq before. I consider this a very good thing indeed (John Scalzi (Hugo Award-winning author of REDSHIRTS))Total gamechanger. Get it, read it, wish to hell you'd written it. Ann Leckie's Ancillary Justice may well be the most important book Orbit have published in ages (Paul Graham Raven)Establishes Leckie as an heir to Banks and Cherryh (Elizabeth Bear)It's not every day a debut novel by an author you'd never heard of before derails your entire afternoon with its brilliance (Liz Bourke Tor.com)Using the format of a SF military adventure blended with hints of space opera, Leckie explores the expanded meaning of human nature and the uneasy balance between individuality and membership in a group identity. Leckie is a newcomer to watch (Library Journal (starred review))Leckie's novel cast of characters serves her well-plotted story nicely. This is an altogether promising debut (Kirkus)Our #1 pick for the year's best science fiction or fantasy book . . . this Iain M. Banks-esque tale was the book that made us most excited about the future of science fiction in 2013 (io9.com)It engages, it excites, and it challenges the way the reader views our world. Leckie may be a former Secretary of the Science Fiction Writers of America, but she's the President of this year's crop of debut novelists. Ancillary Justice might be the best science fiction novel of this very young decade (Justin Landon Staffers Book)The sort of book that the Clarke Award wishes it had last year ... be prepared to see Ancillary Justice bandied around a lot come awards season. (As it should be) (Jared Shurin Pornokitsch)Leckie uses familiar set pieces-an expansionist galaxy-spanning empire, a protagonist on a single-minded quest for justice-to transcend space-opera conventions in innovative ways. This impressive debut succeeds in making Breq a protagonist readers will invest in, and establishes Leckie as a talent to watch closely (Publishers Weekly)Leckie's debut gives casual and hardcore sci-fi fans alike a wonderful read (RT Book s)First rate, rollicking space-opera with plenty of action, intrigue and adventure ... a fabulous debut (The Skiffy and Fanty Show)A sharply written space opera . . . tackling ideas about politics and gender in a way that's both engaging and provocative . . . a

gripping read that's well worth a look (Saxon Bullock SFX Magazine) Werbetext The record-breaking debut novel that won every major science fiction award in 2014, *Ancillary Justice* is the story of a warship trapped in a human body and her search for revenge. Ann Leckie is the first author to win the Arthur C. Clarke, the Nebula and the Hugo Award for Best Novel in the same year.
