Interessante Geschichte Von reader Eine zufällige Begegnung im Baumarkt ist Liebe auf den ersten Blick, aber leider lernen sie sich (noch) nicht kennen. Angeline ist eine Psychologin, Gutachterin bei Gericht und erteilt als Kummertante

einer Radiostation (ihr Honorar kommt wohlthigen Zwecken zu Gute) Ratschlge in Liebesdingen. Eines abends ruft die derzeitige Geliebte des Helden an, dieser erfahrt davon und stellt seine Sicht der Dinge dar. Zufllig treffen sich dann beide und die Geschichte nimmt ihren Lauf mit Missverstndnissen, Eiferschteleien und Intrigen von allen drei Parteien.Es tut gut, einen Roman mit zwei selbstbewuten und alpha Hauptpersonen zu lesen, die zu ihren berzeugungen stehen.Es geht nicht nur um Liebe sondern auch Spannung: Angeline wird von einem Sexualstaffter erpresst.Absolute Leseempfehlung.0 von 0 Kunden fanden die folgende Rezension hilfreich. Good Book with some flawsVon Liv'I'd give 3.5 Stars.I am torn between liking this story and being annoyed by it ' at least at some parts.The writing wasn't bad but I was annoyed at the constant repeat of 'Uhhh' and 'Ummm' and 'Unnng'. I also had to get used to the writing in general. The constant change of POV's was irritating. I don't know the right description of this but google said it's called an omniscient narrative perspective. Everything's revealed and you don't have to wonder what he's/she's thinking because you get everybody's perspective. No place for the reader's imagination.The Story:Dr. Angeline Hemming, short Angel, gives every Friday night advises to women on the radio. She thinks those women are prey for men and they are stupid for falling for men which are obviously not relationship material.When Alex talks to Angel on the radio, he is intrigued by her charm, humor and wit. When he finally meets her, he can't believe it. She is the full package. Beautiful and intelligent. She has it all.He wants to get to know her better while she tries to keep her distance from him because she knows men like him and that she would get burned in the process of getting to know him.Angel knows how awful men can be because of her work as a criminal profiler and that it's better not to get too involved with them.Likes/Dislikes:While I had really high expectations of this book because the blurb sounded oh so good, I was disappointed by the first half of it. It sometimes felt a bit dull.It's too much insta-love/attraction for me especially because both have been living their lifestyles for too long to change it in such short time for someone they hardly knew. Angel thinks women are stupid for falling for awful men but in the end she isn't so much different than them. She herself falls head over heels for a guy that is exactly one of those types she warns other women of. Ugh!I liked it nonetheless but had some troubles with a few bits and pieces. Though when the threats started and it got really interesting I couldn't stop reading. It sadly ended really abruptly and I wish I could continue reading.I loved Alex's character. He was caring, passionate, loving, and just irresistible. But I think it's still strange that he and also Angel turned 180 in a few minutes because they both wanted different things when it came to relationships and suddenly they can't think about anything else than about each other and being with one another.Despite some troubles I had in the beginning of the book, I want to read the next book because I so wanna know what happens next! I believe there will be a HEA in the end which is fine by me but I especially want the goeey parts. I loved the sex scenes. They were hot! And Alex is so worried about Angel. I loved this about him even though we don't know a lot about him yet.-- I received an ARC of this book from the author through the Fifty Shades Support Group on Goodreads in exchange for an honest review. --0 von 0 Kunden fanden die folgende Rezension hilfreich. Zwei starke PersnlichkeitenVon Rin HayashiDie beiden Hauptcharaktere sind starke Persnlichkeiten, die sich nichts vorschreiben lassen und die in unterschiedliche Bilder gepresst werden von den meisten Leuten. Interessant ist, wie wenig diese Bilder tatschlich zu ihnen passen und wie sie versuchen, dem jeweils anderen klarzumachen, dass diese Bilder nicht zutreffen und die Schubladen, in die sie gesteckt wurden, nur einen Teil der Wahrheit zeigen. Stck fr Stck nhern sich die Protagonisten an und versuchen, ihre Persnlichkeiten zu erhalten, obwohl die Anziehung dies schwierig macht.
