She is the Ghost to his Scrooge.Von Detra FitchThe Angelic Council has made a slight miscalculation. Lieutenant Danvers was supposed to die that day in Vietnam. They did not anticipate Daphne to interfere and end up dying in his place. On these very rare instances the newly deceased simply enters heaven early; however, Daphne insists that Leonard (the angel informing her of the Councils error) go tell the Council to fix the problem and send her back. Returning to her

past life is already impossible, but the Council does decide to allow Daphne to return and take over the life and body of another female due to arrive shortly. They only ask that Daphne do them one small favor. Nathaniel Danvers is CEO of Danvers and Son, a leading department store chain in sixteen states and three countries. He has no idea how the beautiful lady managed to enter his office, much less the building, but he wants her gone. He does not believe in the guardian angel she claims is with her invisibly or anything else that he cannot see, feel, taste, or hear. Yet somehow the silent alarm does not summon help, the doors refuse to open, and he is being forced to watch his life story. Daphne returns on Christmas Eve, several years after her early death. She has until the end of the night to help the son of Lieutenant Danvers change his ways or he will not make it to heaven. (It had been Nats mother who had asked the Heavenly Council for help.) So here Daphne is, paying an after-hours visit to Nats office. With Leonard giving flashes of Nats past, present, and future on various gadgets she has never seen before, Daphne is about to play Ghost to his Scrooge. **** FOUR STARS! You do not have to be a fan of the classic tale A Christmas Story to enjoy this delightful romp (but it sure helps.) This romantic story has the same flavor; however, the author has upped the ante by having the Scrooge be in the twenty-first century and adding some chemistry between Daphne and Nat. (It does not hurt that Carmichaels version of Scrooge is H-O-T either.) Kathy Carmichael has a flare for telling a heartwarming, yet sassy, stories and this one will certainly put you into the holiday spirit! **** Reviewed by Detra Fitch of Huntress Reviews.

Kurzbeschreibung Heartwarming, Sexy and Fun Billionaire CEO Nat Danvers has good looks, money, power, prestige everything except the one thing he really needs. But only in the loneliest corners of his frozen heart is he aware something is missing. Christmas Eve arrives to find Nat alone in his penthouse office, filling out layoff notices while his employees unknowingly celebrate at the office holiday party. In breezes the most incredibly beautiful woman he's ever seen. Daphne, part angel, part human, has been sent by the Angelic Council to teach Nat some tough lessons in the hope his hardened heart will melt. She has only one night in which to help him. With the clock ticking before she must go, can love find a way to touch them both? A heartwarming and funny tale. ~ Trish Jensen, Bestselling Author
