Greeley's best fiction book
Von Wen Zientek (kaleidos@ultranet.com) I am a huge Andrew Greeley fan. He is most decidedly one of my top ten favorite authors. I actively convert other avid readers to his work and if I want to start them on Greeley's fiction, this is the book that I start them on. If you have never read Greeley before, this is the book to read. Mixed with Greeley's interesting blend of religion and "real life" this book is spectacular. For anyone who has ever pondered about the existence of angels this book is both an introspective and fun read. As with every Greeley book, at the end of the book you will be wishing that the book could go on forever because you get so very attached to the characters.

Von Ein Kunde I picked this up off of my mother's bookshelf one day because I was bored. Then I started reading and couldn't stop! This is a book about real angels who seem to, in fact be quite similar to real people. Just like humans, they have problems, likes and dislikes, loves and even children. I fell in love with Sean and Gabriella; their story was poignant, and yet at the same time amusing. Rock on Gabby!! One thing is for certain; I'll certainly be reading more of Greeley's books sometime in the near future.

Von Ein Kunde I read Angel Fire as a library book and loved it enough to buy it after the fact. A charming, funny, entertaining novel.

Kurzbeschreibung
Someone to watch over me? Sean Seamus Desmond, newly-announced Nobel Prize winner, relishes the unknowns of science, but a real-life mystery of love and passion. . . in the form of a beautiful woman who says she's his guardian angel? Impossible. Yet there in his New York hotel room is an enchanting creature named Gabriella Light, who inexplicably and dramatically has just saved his life. Voluptuous and exquisitely dressed, sexy Gabriella, angel or not, is determined to keep him alive as a terrifying web of intrigue closes around him. Pursued by a very real and present danger, Sean Desmond will question his own sanity and his deepest beliefs, as he experiences what cannot be rationalized away as anything other than a powerful, radiant, and transcendent love. . . one that will test him as a man too long afraid of human and divine fires within himself!
A wonderful, electrifying novel, Angel Fire, will delight readers with the storytelling magic that Andrew Greeley does best. Again he has created a tale rich with suspense, breathless entertainment, compelling ideas--and fascinating characters we love, cherish, and never forget.

From Library Journal
The prolific Fr. Greeley continues his apostolate in this transparent and often trite fantasy novel. The story deals with Professor Sean Seamus Desmond, biologist at the University of Cook County, his trip to Stockholm to accept a Nobel Prize, and his alternate brushes with death and a beautiful angel. For reasons unknown to him, Desmond is targeted by numerous thugs intent on liquidating him. He is repeatedly rescued by the beautiful Gabriella Light who has extraordinary (angelic) powers. Romantically attracted to her, Desmond flirts mawkishly, employing sentimental "Irish" expressions. Though clearly intended to deliver a reassuring message, this modern-day fantasy is too "lite" to be recommended. Save your budget.
