Heart! Von Dirty Bird What can I say? A near perfectly crafted sumptuously sexy story. We follow 19 year old Jo from a repressive mission house (where she is already driving a 17 year old boy wild and having a lesbian affair with her roommate) to a new age commune in the Yorkshire countryside, where the charismatic shaman, Michael, is conducting experiments in shape-shifting. The story is well paced, with both sex and story developing and getting wilder throughout. Martine avoids the slightly contrived feel of her previous novel, "A Feast For The Senses". There is a clear comparison drawn between the pleasure and promiscuity of the commune and the austerity of the mission house, but fortunately Martine resists the temptation to get too preachy and we discover that even the commune is not quite as free as Jo at first believes (there's always a catch isn't there!). An exciting and sexy read. I recommend it unreservedly!

Kurzbeschreibung Jo is too young and adventurous to submit to the stifling morality of the religious mission house where she's grown up. When her friend Emmi runs away to live in a pagan community in the depths of Yorkshire, Jo follows, keen to open her mind and body to the realities of the wild, untamed sex they practise there. Michael is the charismatic leader of the group, who promises her the ultimate exploration of her newly awakened animal passions. As the summer heat intensifies, and preparations begin for their orgiastic midsummer festival, Jo is expected to play a central part in the cult's increasingly bizarre rites. Will she ever re-adjust to normal society?
