Start! Von Tea PI got hooked right away with "Annihilate Me" and enjoyed the story a lot. It reminded me somehow of FSoG, which I didn't mind at all. The chemistry between the eligible billionaire Alexander Wenn and the bright but jobless college graduate Jennifer Kent was awesome, and I could actually feel the tension building. But I'm glad that the complete series has already been published, because this book just ended when the relationship of Alex and Jennifer actually starts. Of course, the two main characters were smart and sexy and devastatingly beautiful, and there is nothing wrong with that in romance. Their first encounter was great, and I was thrilled to read about how they would manage to meet again and what would happen after that. I can't help it, this book just was a page turner for me. Seriously, after Jennifer landed a "job" with Wenn Enterprises and the unbelievable Ms. Blackwell got her all dolled up, I couldn't wait for that elevator door to open. So far, this series is a modern fairy tale to me, and I think I will go all the way through until I'll get my "...and they lived happily ever after". This is a great start for a series and my hopes are high for the next installment.

Von Maria Die Geschichte ist eigentlich ganz schön, auch wenn es wieder sehr typisch ist: Millionär armer Mädchen werden glücklich. Ich habe mittlerweile alle fünf Bücher gelesen und wei im Endeffekt nicht mehr, warum. Die Hauptfiguren finde ich nicht so sympathisch und es kam mir insgesamt in den ersten vier Büchern etwas so vor, als würde immer wieder neues Drama gesucht werden. Außerdem ist bei jedem Buch angegeben es hätte 300 und ein paar Seiten in gebundener Ausgabe. Das kann ich überhaupt nicht bestätigen, die Schrift dazu war wahrscheinlich 20 oder so. Stellt euch auf etwa 150 Seiten pro Buch ein.

Kurzbeschreibung The series with more than two million books sold!
