HOT SIZZLING ROMANCEVon Lilian RobertsI bought the book a couple of days ago, because Amber Lea Easton is one of my favorite authors. I was sure it was going to be a great read but this book exceeded my expectations.

"Anonymity" is a captivating holiday romance. The author has done a fabulous job in providing a detail description of the surroundings that pulls the reader right into the pages. I was utterly mesmerized and did not put the book down until I was finished. The beautiful beaches of Belize and the hot sizzling romance between two of the main character, Alyssa and Luke were the perfect cocktail for a hot read. Alyssa is on a weeks rebellious vacation. Her ex was getting married on New Years Eve and she was going try and forget about the whole unhappy situation. In Belize she meets Luke Picket and shes thrilled. This will be a great time filled with fun, adventure, sunbathing and sex. First-name-no-strings attached affair. That is all she was looking for. There will be nothing more between them. No emotional attachments and no complications. They have an agreement to not speak about their private lives, and not to look for anything more than a fun, uncomplicated affair, thinking those words this will keep them safe and uncommitted. Of course it does not turn out that way, and I dont want to spoil the book for other readers, but I absolutely loved it. The story is very well written and the author has cleverly provided a very exciting and scorching hot read. I would happily recommend the book to any person that would love to spend some wonderful time reading a very good book. Very well done, and a MUST READ.

Kurzbeschreibung Alyssa McNeil is through with romance. In Belize on a solo vacation designed to make her forget that her ex is marrying someone else on New Year's Eve, she's determined to break free of her comfort zone. Meeting Luke Picket falls perfectly into her plans for indulging fantasy, letting go of inhibition, and having uncomplicated fun under the sun. Falling in love with him is definitely not on the agenda. Luke Picket is more than happy to go along with her idea of a no strings, first-name only weeklong fling. He embraces his solo lifestyle and can't see that changing any time soon. When they find themselves trekking through the jungle and facing turbulent seas together, the feelings he'd fought so hard to avoid in his life start stirring in his closed-off permanent bachelor heart. But they'd agreed on anonymity, on a first-name-only-no-strings love affair, and neither wants to ruin the moment with unwanted declarations. Old beliefs are challenged. Doubts questioned. Will they stick to their deal and go their separate ways when the week is over? Or will the new year bring them a new attitude about love? **The Wanderlust Series consists of stand-alone adventure romance novels. Occasionally, characters from previous novels may make a cameo, but each story truly does stand on its own merits.

ber den Autor und weitere Mitwirkende Amber Lea Easton is a multi-published author of romantic suspense, contemporary romance and nonfiction. An avid traveler, she incorporates her real-life adventures into her novels as much as possible (minus any illegal activities, of course.) "Smart is sexy," Easton says, which is why she creates smart heroines who have a lot to lose yet find the courage to face their fears to overcome adversity. She's an avid reader of all genres or "whatever turns her on in the moment". Easton lives in Colorado, USA, where she gives thanks daily for the view outside her window, her ability to pursue her passion, and for her family. Love is her motivation for all things--whether it be writing, traveling, playing with her dogs or hanging with her two teenagers--if it's not done with love, then what's the point?
