A moving story that touches the reader and makes him spellbound. Old Mrs Boynton is a real tyrant who constantly torments and tyrannizes her step-children. But not with

blows or insults (after all it are adult children !!!) but with small psycho-tricks turn the young people into nervous wrecks. Even Mrs Boynton's own daughter has a bad time of it so that she gets ideas of madness. Neither an attractive beginning lady doctor nor a famous psychologist are able to help the children. So it is no wonder when the old lady dies at mysterious circumstances during the holiday. But who of the family was it ? All seem to lie and Hercule Poirot bets he was able to clear up the murder within twenty-four hours. It goes without saying that he is able to do it but no one would have imagined at his craziest dreams who finally will turn up as the offender.1 von 1 Kunden fanden die folgende Rezension hilfreich. A QUESTION OF MORALS...Von Ein KundeAs in some of her books, Christie explores the issue of moral standards. Is it okay to kill someone if they are truly evil and oppress everyone around them? This is the case in a slightly unusual and intriguing book. Who would be so desperate to kill their mother and grandmother? The question stays at the center of the book as you realize each family member had ample motive. After all, the grandmother that was murdered controlled her relatives while slowly choking the life away... You will find yourself questioning the situation and wondering what you would do if you had to do something... as either the oppressed--or as the law. Christie takes this book beyond frivolous murder and into a perhaps even controversial set of events. It is worth reading as her efforts to produce an above-average mystery are apparent.1 von 1 Kunden fanden die folgende Rezension hilfreich. read it, u don't feel regret... Von HPI have read most of Ms. Christie's books in my native language and after learning English I want to read some of them in English. This one is my first choice and I could recommend everyone.. The mystery in this book is different from her other books, unpredictable as usual, more psychological factors and strong characters in it.2 main plot which I like most , one of them Poirot overhear some conversation from an open window and the other is their mother's unsuitable reply to young psychologist on the hotel entrance...

KurzbeschreibungA repugnant American widow is killed during a trip to PetraAmong the towering red cliffs of Petra, like some monstrous swollen Buddha, sat the corpse of Mrs Boynton. A tiny puncture mark on her wrist was the only sign of the fatal injection that had killed her. With only 24 hours available to solve the mystery, Hercule Poirot recalled a chance remark he'd overheard back in Jerusalem: You see, don't you, that she's got to be killed? Mrs Boynton was, indeed, the most detestable woman he'd ever metPressestimmen"Twice as brilliant as Death on the Nile, which was entirely brilliant"ObserverPressestimmen"Twice as brilliant as Death on the Nile, which was entirely brilliant"Observer
