Von Spring Horton : Hawai'ian Valentine (Holidays Hitmen Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Hawai'ian Valentine (Holidays Hitmen Book 1) (English Edition):

This book is first and foremost a story about a couple of spies. And it is a pretty exciting and fast paced one. I read the

book in one sitting because I found it impossible to put down. The fact that all main characters happen to be gay men remains a detail, it is not the most important thing about the book. In this world where being straight is taken for granted a book like this that just takes not being straight for granted is a rare thing. I'm always excited to come across books like this. I am looking forward to the sequels and I hope that maybe in those I will learn more about these unusual characters.
