KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Hawk is a page turnerVon Ein KundeThis is the first Elaine Barbieri book that I have read...And I will be reading many more in the future! From the very first page, she draws you right in. I am especially fond of Indian Romances, and the story of Kyle(Hawk) and Eden will not dissappoint, if you are as well. They meet when they are young and fall in love, and they meet again five years later. Barbieri is not a gutless romance author...not one of those who's afraid to separate the

characters from each other/allow them to hate each other...their problems do not get solved in 5 pages. Some authors are afraid to do this, and their books are not very interesting. Instead, she keeps you hanging throughout the book, wanting them to be together in the end. Barbieri is right up there with Georgina Gentry and Madeline Baker. If you enjoy their books, you'll enjoy Hawk as well. A great read. Worth the money. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Kurzbeschreibung "HOW CAN YOU STAND TO LET HIM TOUCH YOU, EDEN? HE'S AN INJUN!" Those were the hateful words Eden's father ung at her when he tore her from the arms of her beloved. Young and idealistic, she believed passion would overcome the obstacle of her lover's Kiowa heritage; instead, the hatred and prejudice of two cultures at war forced them apart. "HER ARMS CLING TO YOU AND YOUR HEART ANSWERS, BUT THE WOMAN WILL NEVER BE YOURS." Such was the shaman's prediction about the beautiful girl he'd once adored, but Iron Hawk refused to believe it. Eden's betrayal might have sent him to the white man's jail, but her smooth, pale body would still be his. A hardened warrior now, he believed her capture would satisfy his need for revenge; instead, her love would heal their hearts and bring a lasting peace to their people.
