AwesomeVon Ronii_iAfter I finished reading 'Love Notes' from Heather Gunter, I couldn't wait for another book from

her. And I have to say, 'Heartstrings' was prodigious. Tori is so strong and Will is just cute. Read this book!!!

Kurzbeschreibung* Best selling series*Love Notes is the first book but Heartstrings can be read as a stand alone. *Contains graphic situations*Everyone thinks of me as this happy and upbeat person. What they don't know is that I carry a deep, dark secret. Something horrible happened to me a year ago, and I have kept it quiet all this time. I was fine for a while, but somehow its chosen this time to come back, and it's eating at me--like a cancer.I need to tell someone about it, I just don't know how. I'm pushing everyone I love away, including my mom and my best friend Charlie.Then there is Will. Handsome, sweet Will. We went out on a date a while back, but then the incident happened leaving me crushed and him confused.How do you tell someone you care about all of your secrets, and will they still want you when the truth comes out?Read Ashley's story in 'Changing Tunes' - a spin off, NA romance

A talented singer, who once dreamed of pursuing a career in that field, she has put that goal aside in exchange for her writing.
