Gentle and thought-provokingVon Georgia RoseI dont generally give much thought as to what happens after death but this was a wonderful tale of how it could be. Teenager Portia has died but finds she is still amongst the living and has to work out how to carry on in this new world that has dangers in the form of ghouls as well as perks such as being able to change location just by thinking of it. Portia makes new friends who help her as she struggles to deal with her

families grief over her death. This is a well written, nicely paced story through which a tender young romance flows as well as giving you plenty to think about in an area that perhaps many people prefer not to. There are some lovely well rounded characters, both good and bad, and Wilson depicts them all and their settings very well and I particularly loved the thought of the waiting room and the bureau. This was a highly enjoyable read that I highly recommend.

Kurzbeschreibung I was having one of those summers. Nothing was happening and time seemed to be dragging. What I didn't realise, was that time was in fact moving along rather quickly; I was just out of step. It's a funny thing. I had been stressing about whether or not to go to university, my parents, all the usual stuff, but I needn't have bothered. Life, or should I say, death, has a way of making those decisions for you. So, here I am. Heaven didn't want me and earth is just as scary for the dead as it is for the living. Do I know what I'm going to do with my life, sorry, my afterlife? Well, if they say life is for the living, this must be for the rest of us...  
ber den Autor und weitere Mitwirkende From Hamilton in Lanarkshire, Clare has a History degree from Strathclyde University and now lives in London with her husband. Having spent some time trying to find some magic in various fields, she is now concentrating on her career as a writer. Clare was drawn to writing by her life long passion for reading and inventing stories. As a child, Clare loved nothing more than curling up on a window seat in her local library and being carried away by a magical story. A fantasy fiction fanatic, she has published two books in The Staff Wielder Series as well as writing other stories of a fantastical nature.
