Sexual tension galore!Von Mystery ReaderI'm one of Donna Fasano's greatest fans after discovering her books with Harlequin years ago. I have to say this book goes down as one of my favourites.Right from the moment they meet, a half-naked Ryan and Julia have a sexual tension between them that I swear made my Kindle spark at times.Both of them are adamant they'll never get involved in a relationship again.But personal circumstances intervene and to

overcome them, Ryan and Julia embark on a Fake Romance. Romance at it's best from the queen of sweet romances.
