Not quiet...Von MagritteRunning away from her everyday life, Lily hides in a house in the forest. Her problem is that she is unable to finally have a sexual relationship with a guy, therefore she is still a virgin. On her first night, her house is being attacked by wolves and a gloriously naked man. He is a werewolf, like the others, but he wants to save her, marking her sexually... She gets to know that she is a breeder, a woman focused on having sex with a werewolf and his pack, but very choosy, however she attracts all man. After a hot night she finds out that there is more than what Chaz

had told her. She has in fact also to be with his alpha, Kade, but everything is more difficult than it seems. The story is highly sexual, M/M, M/F/M, but also spanking and a little bit of domination in a world of werewolf territorial war. In 154 pages and 4 days in the story the author describes a physical and emotional link between the 3 main characters. But somehow I didn't really get into the whole story. First it reminded me of something else I read such as Sex With Strangers. But I also didn't really get any connection to the male characters, nor to the whole story, I did not really care about what happened. Even though the sex scenes were nice, as I didn't really enjoy the rest as for me too much background was missing, so the sex scenes were not really intense enough if only those support the story. The read was ok but not really amazing

Kurzbeschreibung [Menage Amour: Erotic Paranormal Cowboy Menage a Trois Romance, M/M/F, with M/M, werewolves, voyeurism, spanking] Being a die-hard virgin who is irresistible to men is the least of Lily's worries. Her plan for a "quiet" weekend escape goes wild when a pack of wolves crash into her cabin--and a hot, naked cowboy saves the day. Chaz reveals that the wolves are far from ordinary--and he bears the same curse. Her only chance to escape becoming their sex toy is for Chaz to claim her as bond-mate--but he's no lone wolf. Sexy alpha Kade Winchester comes with the deal, and both shifters will share her passion just as they share passion for one another. But even if she gives herself to the two men with a dark, animal secret, will their bite on her truly put an end to the other pack's demand for mating rights? \*\* A Siren Erotic Romance
