**Von Debbie Mumford : Her Highland Laird (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Her Highland Laird (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. absolutely worth the money I spent on itVon Katharina Gerlach (Indie Autorin)Well, I'm normally not someone who reads romance novels, but lately I have made exceptions. First, I discovered Delle Jacob's wonderful books, now I stumbled over Debbie Mumford's Romance stories. This one was an absolute treat. Not only did it depict the life in 15th century correctly (well researched for such a short story), it evokes emotion very well without using the standard

problems of many other romance novels -- and that's just what a good romance novel should do. I'll definitely read more by this author.

KurzbeschreibungCat Logan, a young American with a recent degree in medieval literature, travels to Scotland to discover her roots. She finds more than she bargained for when a mysterious silver casket (rumored to hold the desiccated heart of a long dead Scottish laird) transports her back in time to the 1400s and the man whose heart she holds in her hands.Note: This novella is intended for mature readers.KurzbeschreibungCat Logan, a young American with a recent degree in medieval literature, travels to Scotland to discover her roots.
