Edelbordells verliebt sich in ihre junge Angestellte. Dies in London im frühen viktorianischen Zeitalter. Die Geschichte ist gut nett und gut geschrieben, verfehlt aber nicht ganz die Klasse vergleichbarer Bücher von Keira Telford. Letztere schreibt detaillierter und drastischer. Dennoch eine ansante, relativ kurze Lektüre zum günstigen Preis.

Kurzbeschreibung Miranda Dashwood was born wealthy, but now she struggles to survive: her deceased father's gambling debts have crippled the household. With no skills and no experience, Miranda resigns herself to the world's oldest profession and loathes every moment of her new life... Until she meets Valerie. Valerie Wilde is the Madam of The Crimson Manor, an exclusive and successful brothel. When one of her most popular girls leaves, Valerie has to find another, fast. Her clients are demanding and discerning, and Valerie's task is no easy one: most harlots are too unrefined, too vulgar... Until she meets Miranda. Confused by their desire for one another, the women are drawn together by their forbidden feelings. And all the while, Valerie is terrified that Miranda will leave her for the life of a kept mistress. But Miranda has her own ideas on what the future holds, and will do whatever it takes to make her vision reality.
