Kurzbeschreibung Countess Damaris Wellesley has suffered more loss in her 25 years than most people suffer in a lifetime and to protect her shattered heart, has closed herself off from Society and taken refuge in her books. When the remains of her long missing father are discovered though, she is determined to see justice for him and ventures out into the world once more. As Justice of the Peace, Nathaniel Copley views it as his duty to discover what befell her late father but she is too wary of his intentions to help. Thinking him arrogant and superior, she flatly refuses to cooperate with his investigation. Finding her behaviour to be impertinent and abrasive, he tries to dismiss her from his thoughts. It doesn't take Nathaniel long to realise that she is something special and worth fighting for but even although she agrees to help him investigate, her heart proves far harder to secure than her help.
