that slipped out the door...Von Jean SmithHero is a pretty good read but if youre looking for completion and an HEA it may not be your cup of tea. Hero is a serial read. The Assignment is the first installment. In it you meet special forces Sergeant Cormac Haze Welch. Haze is definitely hero material all the way. First hes fishing an injured and drowning Leighton from the pool at a party and four years later hes saving her brothers life in a firefight. When Haze is told he wont be able to return to active duty hes left at loose ends. Of course, his family has his whole life planned out for him sitting behind a desk. For this special forces medic sitting a desk is the furthest from anything he wants in life. So when hes offered a job as a what appears to be a glorified babysitter for a vacuous party girl he sees the opportunity to work his recovery and get back to active duty. What he didnt expect was to be confronted with is Leighton, the girl hed save the girl hed made love to and ditched out the door on. The girl he hasnt been able to forget. But has she forgotten him?Leighton Machus had plans for her life that is until her parents died. Then her life was taken over by her tycoon grandfather, a grandfather with the worst of opinions of her. There was nothing she could do that was right or that would gain his approval or respect. So when the worst is expected of you why disappoint with anything more than whats expected? Shes become rather good at playing the vacuous party girl. She has a player boyfriend that is a habitual wanderer, a demanding grandfather, and self-centered best friend. The only one that sees past her facade is her little brother and he means the world to Leighton. When her little brother, Ian is injured on the battlefield she cant help but want him home for good. But, Leighton knows serving is all Ian wants in life. Grandfather, on the other hand, has decided to pull a few strings and have Ian honorably discharged. And, in the same tune of loving interference hes decided Leighton needs a bodyguard. Good lord, a glorified babysitter. If it werent for the fact that her babysitter was the man that saved her brothers life shed so ditch him. Then she discovers hes not just her brothers savior but her own. Hes also the man that rocked her world and skipped out the door with no warning. Shes never forgotten her night in his arms. But has he forgotten her?The chemistry is there. Theyre in an untenable situation. Theyre both ready to cut their losses and walk away. But there are threats Leighton and Haze are unaware of. Threats that perhaps will have Haze rethinking his decision to walk away even if staying is a miserable prospect watching the woman he wants in anothers arms. Ms. Parker has the beginning of a great story with this first installment. Her characters are compelling and very likable. If youre looking for a great serial with a military hero then Hero will certainly satisfy. All indications are the suspense and action are about to ramp up.*****Reviewed for Xtreme-Delusions*****
