Von Adrian Fridge : High Five Dive (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised High Five Dive (English Edition):

KurzbeschreibungIt's been 200 years since mankind first settled on Mars... and found about about the aliens... and had

a big War... but this is not about all that. After his ship stalls on his way back to the Mars colonies, Clark Waters is forced to confront his childhood menace and brother's best friend, the very same Evan Mitford who owns the repair shop in charge of fixing this problem. Hot, hot Evan who he's been secretly attracted to for ages and who is now invading every inch of his life. Insults traded and barriers broken, someone's getting f*cked.
