Ich habe nicht gemerkt wann Teil 1 und 2 zu Ende waren und schwups war das Buch leider schon vorbei. Es der Autorin ist wirklich gelungen ein rundes Buch zu schreiben. Es bleiben keine Fragen offen und die Handlungen sind nachvollziehbar. Die Charaktere sind schn ausgearbeitet und das Happy End nicht gleich zu sehen. Ich freue mich schon drauf, das Buch noch einmal zu lesen!

KurzbeschreibungHis Assistant, Part 1 -Warning: This story contains content which is intended for readers over the age of 18. The one person I loved most in the world was gone. What was I going to do? I had given up the last two years to take care of my mom and be with her until her last breath. She was my best friend. At twenty-one, I was going back to school. That was what she had wanted for me. I was determined to own my own company one day. It was important to her that I finish school, and I wanted to make her proud. My father had passed away before she could tell him she was pregnant. She had given up so much to raise me alone. I knew she would have done anything for me. The

day after her funeral, I found a box in the attic with my name on it. She told me about the box the day before she passed, but I promised her I would wait to open it. When I opened the box, I found a letter on top. There was nothing that could have prepared me for what I was about to read. As I read the letter, tears fell from my eyes. I dropped the letter to the floor and tore through the box as I sobbed. My life would be changed forever. How could she have lied to me? How could the one person I trusted most have kept such a big secret from me? There was only one person who could answer the questions I had, and I could only think of one way to get to him. I had to get a job, and there was only one company to work for. The only thing on my mind was getting answers. One thing I didn't need were distractions. Then he came along. He was tall, built, tattooed, and oh so sexy. In a suit he looked amazing, but in jeans and a tight t-shirt he was unbelievable. Just when I thought he couldn't get any sexier, I saw him on his Harley. I was in trouble. I couldn't keep my thoughts straight. He was cocky, full of himself, and held my fate at the company in his hands. One minute I couldn't stand him, and the next I wanted him more than I had ever wanted anything. Would I be able to get the answers I desperately needed before tall, dark, and sexy turned my world upside down? His Assistant, Part 2 -I accepted a job at Luke Technologies to learn more about the man behind the company, Luke Andrews. I didn't plan to love my job and build relationships with the people I worked with, including Luke. I had secrets that I needed to keep hidden until the time was right. Another thing I didn't expect to find was Kevin Reynolds, the opposite of what I wanted in a man. He was cocky, demanding, and full of himself and felt the need to control everything around him. At the same time, he was tall, dark, and tattooed and looked super sexy on his Harley. Kevin should have been off limits. He was closer to Luke than I thought, and he was my boss. The man held my fate at the company in his hands, and the harder I pushed him away, the more I wanted him. It didn't help that he seemed to appear every time I needed someone. Just when I thought things couldn't get any better, my world came crashing down around me. What would Kevin do if he discovered my secret before I was to tell him? I found out the hard way, and his reaction was not at all what I expected. His Assistant, Part 3 -When my Mr. Right stormed out on me, I didn't know what to do. Then I got a call that shattered my world. I couldn't believe it. There was no way it was true. They had to have been wrong. My talk, dark, and handsome had to be okay. The three months that past after that night were hard on all of us. I had secrets, and it was taking everything I had to keep them locked away. I made a promise to the man I loved. It was a promise I knew I needed to keep. How could I do it? Could I really walk away from him? What would happen when if he found out who I really was? Would I end up living a life like my mother? Would I lose the only man I would ever love?
