They are tracking down a hitman known as The Facilitator. The Facilitator has a personal vendetta against Jesse, but, for some unknown reason, is targeting Kate. Who has hired the notorious hitman, and who is the actual target? There's a lot of conflict and action in this fast-paced, romantic, mystery thriller. I loved Kate and Jesse's characters and the steamy dynamics between the two. They each have suffered past tragedies, which has caused them to close off their hearts to love and the consequences of giving your soul to another person. There were plenty of secondary characters, and my favorites were Reagan, Jesse's daughter, and A.J., Jesse's brother and Kate's partner. It appears the next book in the series will be dealing with A.J. Hamilton. And talk about a bunch of hunky men carrying firearms. I love them. As plot twists go, about one third of the way into the book, I had a nagging idea of who the ultimate villain was, so there were no surprises on that front. What I didn't like were all the redundancies as Kate and Jesse sorted out their feelings. A good copy editor would have helped eliminate these issues, along with the lack of commas. I really enjoyed this book and recommend it for people who like mystery thrillers. I give it 4 feathers.
