Continuation of the MacRaes' storyVon Kindle JunkieOn the trek to Kentucky, Duncan is immediately attracted to Ciaran but her abusive husband is in the way.Stephanie Sterling's stories are getting better as far as typos and such go. I will continue to read her works.

Kurzbeschreibung Duncan MacRae is a man with nothing left to lose. Chased out of his homeland and across the sea, he is barely settled in the new world before he loses his beloved wife. When a ragtag group of former clansmen propose a dangerous journey into the frontier, he agrees to come along, undeterred by the prospect of almost certain death. Along the way, he meets Ciaran Connelly, an Irish woman whose vulnerability and devotion stir up the embers of feelings he thought were forever beyond his reach. Together, they cross through the wilderness in search of a new future and, perhaps, HIS HEART'S HOME.
