There's a job fair and she's trying to talk to as many employers as possible.Her private life is just as sad as her professional one. The guy she was in love with left her a few weeks ago. Just like that. Storm just took off to go touring with his band.Now she's in Philadelphia and out of the window of the restaurant she sees Storm in a suit

walking down the street! She follows him into a coffee-shop. Only as it turns out, it's not Storm - it's Dane - and up-close he doesn't look all that much like her EX. But he's just as hot. Dane is immediately attracted to her too, but she's late for the job fair and has to leave. But she can't get a cab in the rain, so Dane offers her a ride in his Limo. That's how they meet and we notice that they're both really attracted to each other. And that's how they end up in her hotel-room later that night. Dane is a very dominant person in the bedroom - and Jessica is really turned on by that. They spend a verrrry sexy night together, but Jess is totally spooked the next morning, and she takes off without saying goodbye. A few weeks later she's starting her new job at Ranier. And guess who her new boss is? Yep - she's going to be Dane Ranier's personal assistant! After a few days of feeling very weird with this whole situation the two of them finally find a good compromise - SEX - and only SEX. No relationship - no feelings. But nothing is ever as easy as you want it to be....feelings just sometimes happen. Plus there's the little matter of Storm....I'M NOT TELLING YOU WHAT WILL HAPPEN OF COURSE... I don't want to spoil your reading pleasure

I REALLY LOVED THE BOOK!!! It was a great book! I've read all of Opal's books - and if you love EROTICA - you can just buy anything that has her name on it! You won't ever be disappointed....This one started out perfect - the perfect erotic Romance. Nothing really new - but still the perfect story: dominant rich guy meets down-on-her-luck girl - she starts working for his company - they have sex...then feelings get involved. It was really great, until the other guy showed up. I love a mnage story as much as the next girl, but this was not really a mnage romance :(It was just 2 guys wanting the same girl. I would've taken them both!! But that's not really what happens here. And I know I probably spoil too much when I say that Jessica ends up with one of the guys and not with both. The book starts really perfect and the very end is perfect too. But everything that starts to happen at the 50% mark totally confused me. Maybe it's just me - I love it when I have two people who fight through whatever it is they have to fight through - and then they find their HEA. And I can totally live with a mnage-HEA too. But this was just too weird. YES - the sex scenes were amazing and both Storm Dane are extremely hot guys. Totally different - but both totally sexy. But I personally didn't like the way the whole 2-guys-and-a-girl-thing was handled. I don't even know why - the end was perfect again. But everything that happened before was just so totally disturbing. It didn't make any sense to me. But aside from all those - for me - totally confusing turns - I really enjoyed reading the book. Just like ALL of Opal's books, this one was perfectly written and it had the perfect amount of sex and feelings. BUT I just wish it would've been a bit longer - the end felt a bit rushed. If you like erotic romances with a girl between 2 guys (half a HEA included) -----GO AND BUY THE BOOK
