**Von John Inman : Hobbled (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hobbled (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. First love, a little mystery and lot of smilesVon SunneOkay, okay, 1 star is for the fact that I really, really love John Inman's writing style. Clear words that makes every experience more "real". Add to this a nice touch of humorous expressions and I'm sold.Now to the story. You can say this book has two parts:Part 1 is about "bored and bound to the house" Danny meeting his new neighbour Luke. Both are gay...and horny...and they realize very fast that they are very

attracted to each other. So the first part of the book is mostly Danny and Luke having a lot of fun with each other....damn...that made me want to be that young again with free time, a house of my own and a new love at my hands. You can count on it, it is a lot of sex. But, funny as it is because too much sex bothers me most of the time, I enjoyed it very much. It doesn't feel like sex alone, it's also a getting to know each other and getting more and more comfortable with each other. It really felt good :DPart 2 is the mystery. Young men are getting killed. Now all side characters finally come to play, two smartmouthed kids and a strange drinking old lady. Especially the kids are fun. There are a few moments when I thought "Uh, now he is stretching the credibility a bit much"...actually, yes, not everything in the book is plausible - but on the other hand, who knows how young guys really think. They still believe they own the world anyway. Well, back to the story. There are disturbing events - cries in the night, Luke's room "ehrm" violated, etc. They start to believe the boys that the killer lives in their neighbourhood. I'm not going to spill who it is, read the book. The end is...absolutely the fairy tale HEA - some people have complained it's too good. An while I somehow even agree with that, I still found it most endearing, enjoyed it very much and think it really fits the whole story because, seriously, John Inman, don't take it the wrong way, please, I checked out my sense for reality at the beginning of the book. I'm sometimes a real picky reader concerning realism in books. But it depends on the book. If a book wants to be realistic, I can be a real b\*\*\*\* when I find something that stretches the credibility. But if a book is written like this one, with an underlying humor and a wink and a smile and the invitation to join for a funny ride, then I don't mind the fairy tale. You want first love, a little mystery, a lot of happy smiles? Read it, I loved it.

Kurzbeschreibung Thanks to fate and his own lack of good sense, eighteen-year-old Danny Shay is headed into what looks to be the worst summer of his life. It starts with a minor meltdown at work that leaves Danny under house arrest with a cast on one leg and an ankle monitor on the other, courtesy of the San Diego Police Department. On top of that, hes battling a chronic case of virginity, with no relief in sight. Oh, and theres one more little glitch. A serial killer is stalking the city, murdering young men. And when strange sounds are heard in the house behind Dannys, the neighborhood kids think theyve found the killer. But not until Danny learns he's next on the madman's list do things really begin to get desperate. Damn! And Danny had plans to come out this summer maybe even get laid! He doesn't have time for ankle monitors and serial killers! Then ginger-haired Luke Jamison moves in next door. Not only does Luke solve a few of Danny's more urgent problems, he also manages to create a couple more that Danny never saw coming. Gee. If he can survive it, this summer might not be so bad after all.
