Von Jackie Collins : Hollywood Kids (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Hollywood Kids (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Where Does She Get These Ideas From?Von Dalia SotoFor a while, I gave up on Jackie Collins because her readings had become predictable. Basically, most (if not all) of her settings revolve around rich kids getting in trouble; self-centered Hollywood celebrities and insane fans. However, her style of writing is incaptivating and still makes me want to pick up her books once in awhile. Collins is a temporary addiction.Hollywood Kids has the same type encenerio: glamor

lifestyle, careless Hollywood parents and bratty grown up children. But, I really got into it toward the middle of the book when the girls got into trouble (like always), I think that's what makes any book exciting. This time trouble looked for them--which was refreshing for a change and that is why I liked this book. There were too many characters that I couldn't keep up with until later on as I read--because the girls became the focus in the story. Since I was expecting the Collins' usual, the first few chapters were slow and boring. It got better. I would like to read about REAL characters for a change--no more about Hollywood spoiled-rotten children, celebrities and their parents. Overall, Collins is still a great writer. 0 von 0 Kunden fanden die folgende Rezension hilfreich. This was a surprisingly good suspense book! Von HARplee@aol.com I have not read a Jackie Collins book in a while, and had a little trouble starting this one. However, once the characters were developed, I was totally hooked. I truly had trouble putting this one down after a few pages. I was so involved I found myself wanting to try and tell the cops to protect Jordanna and Cheryl, a long time before they knew that's what they should be doing. I was glad to see some family reconciliations taking place, too, at the end of the book. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Well..... Von Ein Kunde For candyfloss reading, Collins is ok. I rather enjoyed Hollywood Husbands, Wives, RockStar. But Hollywood Kids..... well.... Collins seems to want to shock more than ever, but her attempts, instead, are tawdry and pathetic. And rather tired and dated. Perhaps she should try writing sex manuals. It seems, in this book, blowjobs exceed plot and storyline. This book does not inspire me to read any other Collins books.

Kurzbeschreibung Wherever there's money and glamour, trouble can't be too far behind. In Hollywood Kids Jackie Collins takes her readers back to the Hollywood Hills for another absorbing page-turner of sex, ambition, and deadly revenge. At the novel's core is the Hollywood Five, a clique of jaded twenty-somethings whose parents (all major players) thought that child-rearing ended with naming their offspring after themselves. Jordanna Levitt is the wildly beautiful daughter of a powerful producer and legendary movie star mother. Even though she flaunts a coltish bad-girl image, Jordanna yearns for more than lounging behind the velvet ropes in chi-chi clubs and existing on a diet of Midnight Cowboys. Jordanna's best friend, Cheryl Landers, is a sassy, leggy redhead, who is equally idle. Cheryl fills her days doing lunch and buying up Rodeo Drive until a Hollywood Madam asks her to mind shop while she's out of town. Pandering to the rich and famous goes so smoothly that she can't resist turning a trick herself. Grant Lennon, Jr., the son of the last generation's wildly handsome icon, is a junior agent at International Artists Agents. Not satisfied with the number of starlets he can get on his own, he agrees to test-run women for Cheryl's fledgling entrepreneurial venture for a fee. Marjory Sanderson is a dreamy-eyed head case. Barely recovered from anorexia, she invents one phobia fast on the heels of the last one in order to keep her television magnate father's attention. Shep Worth, the effeminately beautiful son of a sex-symbol mother, who won't publicly acknowledge her age, is a man who won't publicly acknowledge his alternative sexual preference. The group had grown up together, sharing the experience of too much too soon, Collins writes. When you've got your family's great looks, and you're always driving next year's hottest sports car, and work isn't necessary because you've got a wallet filled with the sky-the-limit credit cards why fight it? These Hollywood kids have been given everything money can buy except a raison d'être. Though their attitudes are large enough to fill any room, these offspring of privilege are all desperately trying to figure out what to do with themselves. However, life among the rich means life among the damned. A recently released psycho-killer, erotically propelled by blood-lust, is determined to wreak havoc and revenge on the kids' lives. Interwoven into this central drama are the strong stories of a supporting cast of characters: Michael Scorsinni, the street-smart ex-NYPD detective who is doomed to traverse the country until he finds his kidnapped daughter; Bobby Rush, the ambitious and talented actor/producer, who only has his Hollywood Royalty lineage working against him; Kennedy Chase, the blonde and brilliant young widow and journalist who puts the pieces together before the cops and felicitously learns in the process that she's still capable of falling in love; Luca Carlotti, the dandy mob kingpin with the cobra's smile and a weakness for classy call-girls; and finally there's Charlie Dollar, the stoned movie-star savant, perpetually on the prowl for women to fulfill his fantasy of a polygamous idyll. Pressestimmen. Werbetext A B-format reissue of Jackie Collins' flashy trashy classic bonkbuster!! Wow!!
