Whitehead A superb short read. Full of thrilling storylines throughout and spilling with the author's unique writing style. Plot twisting, a serial killer and great entertainment. Thrilling storylines and great entertainment

Kurzbeschreibung From Award Winning and Best Selling Author Duncan Whitehead, comes a short story with a twist and shocking ending. Ashley has to work late. There is a serial killer on the loose who has abducted and murdered women driving alone. Her husband and children are waiting for her, and all she wants to be is home for the weekend. A short but thrilling and entertaining quick read from the author of the acclaimed GORDONSTON LADIES DOG WALKING CLUB Trilogy. From the Author A short story with a twist. This book is part psychological thriller part mystery. Driving at night, alone, along unfamiliar roads gave me the idea for this story. A what if scenario if you like. Told from two POVs (or is it one?) the ending is a shocker. If you don't enjoy the book then please mail me your reading device so I can smash it to bits and save you doing it yourself. If you do enjoy it, then please consider leaving a review. I read them all ( the good ones) and often print them out and frame them. If you want to write a bad review please be aware I WILL NOT frame your review.
