Von Kris Ripper : Home Free (The Home Series Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Home Free (The Home Series Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Totally in love with the "sweet, charming personality"!Von -KundeAfter the first book, I had to buy the second, even though the sex theme is not really my cup of tea. I guess it's not revealing too much, if I say, there is close to none male on male! But -to my surprise- that didn't make it less compelling! I love the characters and had to laugh out loud at some points.The constant switching from light to deep, from funny to sad, it is fascinating and I couldn't NOT read it!The

almost philosophical style of the first book continues here. Is it possible for others to fall in love with you, even though you lost your faith in love? Or the faith in your ability to love? This is one example of a book (combining book one and two) I totally see as bestseller, if not for the non-hetero theme. I'm looking forward to a time, when that is possible!

Kurzbeschreibung People say love conquers all, but thats a bunch of BS. Love doesnt really conquer anything. D doesnt believe in love. Sure, it exists for other people. But any chance she might have had at love was pretty much taken care of by three years chained to a bed in some monsters back room. It doesnt matter how much she wants to take refuge in some stupid dream of curling up next to someone, or how often her friends nudge her in a very specific someones direction, Ds not taking chances. Sure, some people get to fall in love and live happily after. She just isnt one of them. Teddy didnt plan to fall for the young woman next door, but he cant seem to help it. That their two best friends are getting married doesnt help matters; all he really wants is one damn day without talking about weddings and cake choices and if the shade of Ds dress is going to clash with the rose in his boutonniere. When a volunteer job turns into the biggest opportunity hes ever had, he realizes hes not exactly the brave one here. Maybe both of them could stand to take a risk. Can two people ever really commit to one another honestly? Or is true love like the perfect wedding just another myth? **Warnings:** Contains mentions of past sexual and physical violence, but no flashbacks or PTSD. Also, a trans main character who transitioned a long damn time ago.

ber den Autor und weitere Mitwirkende Kris Ripper lives in the great state of California and hails from the San Francisco Bay Area. Kris shares a converted garage with a toddler, can do two pull-ups in a row, and can write backwards. (No, really.) Kris is genderqueer and has no pronoun preference, but the z-based pronouns are freaking sweet. Ze has been writing fiction since ze learned how to write and boring zir stuffed animals with stories long before that.
