Von Cathryn Cade : HONEY FOR NOTHIN': Sweet Dirty BBW Romance #2 (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised HONEY FOR NOTHIN': Sweet Dirty BBW Romance #2 (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Anyone for a bit of slap tickle with two hot bikers?Von Jean SmithIve come a long way since first reviewing Show Me the

Honey for Cathryn in May of 2015. Im not sure if I should thank her or curse her. Some days I think Id like to do both. You see Show Me the Honey was a birthday gift from Cathryn and it is also the first book I wrote an actual review for and published. Well over a hundred reviews later and Im getting a sneak peak at Cathryns newest release in the series, Honey for Nothin, another thoroughly enjoyable read. We were introduced to the main characters of Honey for Nothin in Show Me the Honey. Kit is the bestie of Lindi, Show Me the Honey's heroine. Keys is Jacks bestie and Remi is Lindis cook extraordinaire. In Honey for Nothin the stalkerish pursuit and unwanted advances of a beer belly, drunken MC bully have Kit running for the hills. Maybe things wouldnt have been so bad if it werent for the fact that her own mother instigated the whole darned mess. Things are about to get just a bit more complicated when Kit finds herself the romantic interest of not one but two very hot and protective bikers. I really like Kit. Shes a bit quirky and a whole lot of fun. Her savant intelligence is amazing when it comes to math, but while totally brilliant in that arena, she is so utterly hilarious when it comes to language. She so totally cracked me up with her choice of descriptives at times. She is also a pretty loving and forgiving person. Shed have to be to forgive her mother for attempting to set her up with Bouncer. While not an innocent by any means, she is not the typical friend of the club, biker babe. She has absolutely no intention of being passed around amongst a bunch of bikers or becoming the old lady of some sadistic drunk. Nope, not happening. In fact, shes just going to swear off men altogether. Uh huh, yep right. So not happening when she comes up against the persuasive hotness of Remi and Keys. Either one of them on their own is a challenge, but when the two decide to concentrate their energies on Kit um lets just say celibacy is a moot point. Keys is an equal opportunity lover and known for his player moves. Hes also loyal and protective. When it comes to women he wont put up with abuse, brother or no brother. Bouncer has crossed the line trying to force Kit into a relationship she doesnt want. So MC brotherhood aside, Keys takes a stand. What he didnt expect was his instant attraction to turn into something of a more permanent nature the kind of permanent that spells Old Lady. Hiding out with her and his lover Remi in Keys auto restoration shop just took a turn towards life altering. Native American, Remi has lived a life of hard knocks. Hes a survivor much like Kit. He also knows his way around a kitchen and most definitely knows how to use a knife. While he might not be so free and easy with the lovin like Keys, hes most definitely an equal opportunity lover. He also has no illusion that Kit is just what Keys and he need. Hes already half in love with Kit well before the three of them finally hook up. Where Keys is in your face, Remi is quite and laid back. These two are the perfect foils for each other. Could Kit get any luckier? Honey for Nothin has a few twists. The MC side of things are actually not very heavy as Jack and Keys are affiliate members rather than locals. I have a feeling things are going to change a bit on that score with the next in the series especially when the heroine of that one is Sara, Lindi and Kits best friend who just happens to be an assistant DA, while the hero is none other than the local MCs president. Yep, I think that will definitely turn up the juice on the MC angle. So, if you are looking for the lighter side of the MC culture without all the potential heavy violence and yet with plenty of hot and steamy loving, then the Sweet Dirty series will surely do the trick. Oh and did I mention that Honey for Nothin has just a few slapped bottoms and tickle sessions? Most definitely heat inducing and good for a few laughs. *****Reviewed for Xtreme-Delusions*****
