Von Jlee Meyer : Hotel Liaison (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Hotel Liaison (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Less can be moreVon AstridI was really looking forward to this book after having read the reviews about it. And I have to say that there is an intriguing plot to it but, there is a but... well, to be honest two butts.My first but: I love character

development and I love to get to know my heroines in the course of a tale. And that is where the story lacks. Bitterly. The author just put too many interesting stories, too many fates, to many different personalities with background stories about whom I would have wanted to know more into 231 pages. And I found that absolutely irritating. Let's see: There is a woman who is abused from her girlfriend and tries to get out of this relationship. She falls in love with a woman who owns a hotel and who is not sure if it is the right time for a relationship for her. There is yet another woman, an old lady, that lives in the hotel and you just know that there is a secret around her. There is another woman who feels that she can't do relationships because of something that has happened in her past. There is another woman, the best friend of the hotel owner and the one feeling unable to do relationships that runs around in this story as well. And there is a teenager, run away from home, which meets the old lady mentioned before. And these were just the main characters and the main minor parts. I am sorry, but this is just way too much for me. I have to admit that I began to lose interest rather soon and was only skimming through the book from page 100 on. This is a bit of a shame because, like I stated earlier, the plot is intriguing. And I like the way JLee Meyer worked the abuse girlfriend thing... in the beginning. And this is my second but: Because, honestly, how realistic is it that a woman coming right out of an abusive relationship is turning into some kind of sex maniac with another woman she just met recently. Does that sound healthy to you? Sorry, I really had a problem with that one. All in all I give three stars to this book because of the interesting idea behind it.

Kurzbeschreibung Two women searching through a secret past discover that their brief hotel liaison is only the beginning. Laurel Hoffman, an associate professor of women's studies in Berkeley, struggles to stay on track for tenure while caught up in the last throes of a crumbling relationship with a senior colleague. When she hears of a hotel being renovated and a secret room full of papers about women who once stayed there, she knows she has a potential career-saving article. Stefanie Beresford, the hotel owner, is not exactly receptive when Laurel approaches her about researching the hotel's history, but that doesn't stop her from flirting with the alluring academic. She doesn't need the distraction, but for the first time in her life she wants to take a chance on more than a fleeting encounter. While Laurel can't deny her powerful feelings for Stefanie, she fears she's risking her heart as well as her future if she acts on her desires. But can a simple encounter between two rational adults really be all that dangerous?
