Von Alba Chess : Hotwife Tricks (English Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hotwife Tricks (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. good but not my taste Von twohearts This review contains some spoilers. Also, I'm not a native English speaker, so expect a few errors in grammar and spelling. Probably this novel is worth more than the three stars for a reader who likes the kind of

storyline and the tropes the author used. I enjoyed reading it, the descriptions are good, the language and writing style are good, as far as I can judge. But most of the themes are far beyond my taste. Cuckolding fiction is usually mixed with a touch of maledom fiction or femdom fiction or both. I'm reading cuckold novels because I like the femdom aspect, so everytime I hope there are few if any maledom scenes which I can skip easily. Sadly this novel is about a hotwife who thrives to embrace her inner submissive, dragging her husband along all the way. This means lots of maledom action. The story is quite exaggerated. The couple ends in a brothel and the hotwife finding fulfillment as the "host" of many men while her servile husband collects the pay. Yes, I did read this novel until the end, even if I'm totally not into grown up (dominant) women who suddenly start to swoon over assertive billionaires or glitter vampires or other "alpha males" like teenage girls or vanilla housewives. Hotwife Tricks is nice to read if you like femsub fiction with a rough twist, but certainly not my cup of tea. There are several points which made me continue to read aside from jokes about male masochistic urges like to force oneself to read 50 shades. First, the woman starts the way into the cuckold lifestyle. This is uncommon for cuckold fiction, which normally uses the "Got what he deserved/Serves him right"-tropes of the husband urging the wife on the first steps, before she takes over and pushes him along. The writer shows the reader lots of insights into the hotwife's perspective. I like erotic stories of powerful women narrated from the woman's perspective with a woman acting, not reacting. Second, there are a few femdom moments in the story: the way the hotwife ignores her husband's pleas to stop straying, her slights and insults during her acts and a good scene about a female boss who puts the husband into chastity. Third point, what really got me hooked up was the development of the marriage. I honestly expected, even wanted a separation of the couple. Yes, in cuckold romance a separation can be a bittersweet or even "happy ever after" ending, so I was really hoping for a divorce, each partner finding his/her own way to his/her fulfillment. I was so curious that I even bought the sequel Hotwife Treats. So I gave one star for every point I enjoyed,

Kurzbeschreibung Nicole loves her husband Jim but is unsatisfied with him alone in her bed. Nicole convinces Jim to let her have sex with other men--only when he's watching, though. With one small step after another, she uses his love for her to lead him down a path that will leave him dominated and thoroughly cuckolded. For mature readers. Contains sexual situations and strong language. All characters are over the age of 21. Kurzbeschreibung Nicole loves her husband Jim but is unsatisfied with him alone in her bed.
