It read nicely in most places and had some interesting plot and characters. It does come off a bit disjointed in places though. The book shifts a few

different times, almost like individual episodes in a TV series. And maybe that is how it was meant by the author, but it feels a bit jarring in places. There are definitely very interesting characters and some great action sequences. The author on her twitter profile makes references to Firefly and I can see the influence. This is definitely not a bad thing. I would like a bit more physical description of the characters. There are a lot of different races and I would have liked to be able to picture them a bit better. How far are they from "normal humans" kind of thing? And I would have liked more continuity between the parts. Otherwise a solid first novel and have the others in my queue to sample.

The universe is currently experiencing a time of war and great unrest, much battling and struggle for power and the people are hopeless, restless. We are introduced to the protagonist Craze, whose greedy, unjust father decides to improve his own personal wealth and fortune by getting rid of his son, sending him away to heck out a living in a distant world, away from all that he knows and loves. The adventure is ripe with suspense, riveting and grips you to the very end. Its nicely written and nicely edited and I would love to read the rest of the books in the series.

Kurzbeschreibung In the far future, humanity settles the stars, bioengineering its descendants to survive in a harsh universe. This is the first book in the science fiction series, The Backworlds. A space opera adventure. After the war with the Foreworlders, Backworlders scatter across the remaining planets. Competition is fierce, and pickings are scant. Scant enough that Craze's father decides to improve his fortunes by destroying his son. He tells his only boy their moon isn't big enough for them both and gives Craze a ticket for the next transport leaving the space dock. Cut off from everyone he knows with little money and no knowledge of the worlds beyond, Craze must find a way to forge a new life and make his father regret this day. First, he must survive.
