Von Glen Cook : The Black Company: The First Novel of 'The Chronicles of The Black Company' before purchasing it in order to gage whether or not it would be worth my time, and all praised The Black Company: The First Novel of 'The Chronicles of The Black Company':

KundenrezensionenHilfreichste Kundenrezensionen6 von 6 Kunden fanden die folgende Rezension hilfreich. The most realistic fantasy book I've read! Von Ein KundeUnlike many fantasy books, Glen Cook places his characters not in a world of good and evil, but in a world where good and evil is not absolute. The perception of good and evil in many cases, depends upon the viewpoint of the observer. The reader of the book is drawn into a world much like ours, with sorcery added for flavor. The company, with it's many main characters, serves as the unwilling pawn of the powers that be, trying to "make a living" by doing what they do best and not "taking sides". In this way, they are portraying the human dilemma of feeling a part of the world they live in, yet having little control of their ultimate fate. Also unconventional to many fantasy series, the characters are intertwined in multiple "plots" at once, and their priorities and interests change as the events of their lives unfold. This realism causes a close relationship with the characters that is found in many of the favorite fantasy stories such as the Wheel of Time series and the Belgariad series. However, unlike the Wheel of Time, the Black Company series can be read (for the most part) in sets of three books each giving a sense of conclusion after each third book while still leaving the reader wanting more! The style of writing makes reading the book feel like you are "in the action" instead of feeling an observer, and is a refreshing change from the third person point of view. It is a fantasy book in all respects offering sorcery galore, battles, intrigue in a three dimensional style including an element of depth to the characters, world and plot that can't be found in the works of many authors. Perhaps the only reason the Black Company series is not placed alongside the Wheel of Time, the Shannara, the Belgariad and now The Wizard's First Rule (besides by those who have ventured to pick up the first book to read it,) is that Glen Cook does not produce the books as quickly. However, after reading the eighth book and latest release, I can still say that each wait, which seemingly torments, has resulted in pure delight and gratification. It is the beginning of a series that if not read yet, is a must for any fantasy reader of any age! 5 von 5 Kunden fanden die folgende Rezension hilfreich. Was kann schner sein, als ein Sdnerschwein zu sein? Von NidhoggurThe Black Company ist der erste Band der Chronicle of the Black Company von Glen Cook. Der Autor hat einen ganz eigenen Schreibstil und eine besondere Erzhlweise, die zunchst gewhnungsbedrftig ist, dafr aber spannend und mitreissend. Die Black Company ist eine Sldnereinheit, die seit Jahrhunderten fr Kunden mit dicker Geldbrse kmpft. Ihr neuester Auftraggeber zieht sie in einen alten Kampf zwischen Gut und Bse (oder bse und weniger bse) hinein, der von den Mitgliedern der Company alles abverlangt. Das Besondere an Cooks Bchern sind die farbigen Charaktere und ihre Interaktion, wobei die Welt ein wenig in den Hintergrund tritt. Die Geschichte ist spannend und enthllt die klassischen Elemente, wenn auch in ungewohnter Form. Fazit: Keine Standard-Fantasy, aber durchaus empfehlenswert fr Freunde von actionlastigen Stories mit dsterem Einschlag. 5 von 5 Kunden fanden die folgende Rezension hilfreich. A favorite series that I return to time and again. Von shumes9057@Aol.comI first read The Black Company back in 1989. I was impressed by the darkness within the tale. The "Taken" are completely evil and highly powerful. Their constant plots against one another adds to this bleak atmosphere. Even the good guys, the Black Company, teeter on the edge of dark and light. The characters are facinating. Soulcatcher, a particulary nasty member of the Taken, proves highly interesting. Goblin and One Eye, with their constant bickering, add a bit of humor to this dark tale. I have read this series numerous times and have enjoyed it thoroughly. Glen Cook has created a fantasy setting completely opposite what is commonly found. There are no Elves or romanticised heroes in this series. Instead, it is dark, gritty, and captures the attention.

KurzbeschreibungSome feel the Lady, newly risen from centuries in thrall, stands between humankind and evil. Some feel she is evil itself. The hardbitten men of the Black Company take their pay and do what they must, burying their doubts with their dead. Until the prophesy: The White Rose has been reborn, somewhere, to embody good once more. There must be a way for the Black Company to find her...
