**Von Charlotte Howard : The Black Door (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Black Door (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Great story from a British authorVon Detra FitchImogen Pearce is a thirty-seven-year-old lady who has four kids (ranging from the ages of four to nineteen), a soon-to-be-ex-husband, a screwed up extended family, and a driving need to prove herself. She has not been working long at Ryedale Incorporated and should never have been given a big client so quickly, but her boss, Alex Tremaine, believes Imogen has enough competence to handle its advertising needs.

Problems is that it is now her job to somehow market in a family friendly way an adult toy shop called Wicked Ways. Exactly how does one go about making adult toys and paraphernalia sound family friendly? Then there is the big boss, Cal Ryedale, who keeps hounding her. He is stubborn, conceited, has no respect for his staff, and has been known to throw his golden cufflinks at people when mad. But he also oozes sexual energy whenever they are together. Imogen has a mental hit list going for the day she snaps and goes on a murderous rampage. Cal is often high on that list. While visiting Wicked Ways to get marketing ideas, Imogen learns of a members-only club in the back. She is really surprised to notice that she already knows several of its members. \*\*\*\* FOUR STARS! This story is written in the First Person. It is an interesting blend of Erotica and Modern Contemporary. The author succeeds in showing how difficult it is to be a single mother in the modern world; trying to juggle her home life, work life, and perhaps get a little private time to relax every now and then. The author is British. I mention this because if you live in the United States of America you should be forewarned of a couple of things. First, some English words are spelled differently. Second, you may be confused by some of the slang words; however, most are easily understood by how they are used in the sentences. (But I am still wondering what a babys dummy is. A pacifier?) But make no mistake about it, this is an awesome tale that will keep your attention from the first page until the last. I loved every minute of sleep that I lost while reading this gem. \*\*\*\*Reviewed by Detra Fitch of Huntress Reviews

Kurzbeschreibung Imogen Pearce is a single mum of four children and fast approaching 40, she works at Ryedale Incorporated where she has to battle a younger and smarter generation to get to where she wants to go. If that means taking on the account of Cherry and Sean Rubins adult shop, then she will. But what happens when Imogen discovers the private club that they run at the back? And what happens when she realizes she knows quite a few members? Kurzbeschreibung Imogen Pearce is a single mum of four children and fast approaching 40, she works at Ryedale Incorporated where she has to battle a younger and smarter generation to get to where she wants to go.
