empowering and exciting...
Von Ein Kunde
It is a huge turn on to read what other women are thinking and fantasizing about. I found that my sexual fantasies weren't so outrageous after all and discovered quite a few new ones that were very arousing. Open any page to find a vivid vignette of sex and seduction...delicious!
I will be keeping this book next to the bed for easy access! It's just the thing to get your motor running.

Surprising...fascinating... NO !
Von Ein Kunde
I was expecting a blow-the-door revelation on fantasies. But it seems nothing has changed in the years. Nevertheless, the content and the depth of these women's fantasies were widely varied.

Kurzbeschreibung
The Black Lace Book of Women's Sexual Fantasies reveals the most private thoughts of hundreds of women. Here are sexual fantasies which on first sight appear shocking or bizarre - such as the bank clerk who wants to be a vampire and the nanny with a passion for Darth Vader.
Kerri Sharp investigates the recurrent themes in female fantasies and the cultural influences that have determined them: from fairy stories to cult TV; from fetish fashion to historical novels.
