Von Marsha Canham : The Blood of Roses (Scotland Trilogy Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Blood of Roses (Scotland Trilogy Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Wonderful bookVon Angie67If you haven't read this yet, grab a copy wherever you can find it. It's an unbelievable tale of adventure, poignant romance and great vibrating characters.Right up there with Judith McNaught, Lisa Kleypas, Judith James, Lorraine Heat and all the others. A MUST read.0 von 0 Kunden fanden die folgende Rezension

hilfreich. Very special
Von Ein Kunde
In 1745, Scottish rebel Alexander Cameron leaves his beloved English aristocratic spouse Catherine Ashbrooke in the safety of her family in their Derby, England home. He then joins the Scottish army, led by Bonnie Prince Charles, that is invading England. Not too long after that, The Scottish forces successfully occupy Derby and Catherine's family home. Catherine and Alexander enjoy a pleasant respite, but soon the Scots flee northward, knowing that they cannot continue to battle against the overwhelming English forces.
L
However, as Scotland battles for its independence, Catherine is forced to flee her English haven for the protection of her husband. Still, Catherine is captured by Alexander's sworn enemy English Captain Hamilton Garner. With a great battle coming soon at Culloden, Alexander realizes that he will have to fight Hamilton to the death in order to insure the future safety of Catherine. Historical romance fan favorite Marsha Canham provides a refreshing sequel to her extremely popular *THE BLOOD OF ROSES* stars two popular figures from the previous novel, whose star-crossed love for each other adds to the era. However, it is the genuine feel of Scottish and English history prior to and during Culloden that makes this a wonderful eighteenth century romance.

Von Ein Kunde
I have never read a book that I felt exhausted after reading it. It made me wonder how Ms. Canham felt after she was finished writing it??? I loved the book. I have read as many of her books as I can find and found that, even though I loved them all, this one, and the one before: "Pride of Lions", are truly unmatched. I have read many books by many authors since then and no one can truly compare. However, I have just finished reading "Rebellion" by Nora Roberts that also was place at the time of the Battle of Culloden. In a way I wished I would have read that one first because the historical characters in that book correlate to the historical characters in this book. However, that book I would consider to be "Battle of Culloden 101" for historical facts, and this book, "Battle of Culloden 401". It is very intense, very passionate, very bloody and very real. I could feel the swords biting into me, I cried the tears of the women waiting for words, and I could smell the blood on the various fields. Mostly, though, I can grieve over the loss of their land and their country. Even today, though they are now called the "United Nations" England reigns over the country and they live under the ruler of Queen Elizabeth. I wonder what those who died in that last battle would say today if they could?

Kurzbeschreibung
The stunning sequel to *The Pride of Lions*!
In a novel that sizzles with passionate intrigue and breathtaking romance, Marsha Canham whisks the reader back to war-torn Scotland as a legendary warrior fights for the two things most precious to any man: his country and the woman he loves. She was born an Englishwoman, but he made her a Scot, pledged to fight for her beloved husband--even against the country of her birth. Catherine Ashbrooke Cameron had committed the unpardonable sin of falling in love with her husband--a Scottish spy she married in her English home. Now, as she raced to the Highlands, the innocent English beauty would learn the passions of war--and the price of love . . . Alexander Cameron was a man with a price on his head and enemies to burn. Love had made the legendary warrior vulnerable. Now he must protect Catherine from the dangers that threatened them both. He had claimed her, touched her, loved her, and she vowed nothing would ever separate them again, even as he rode into a battle that would forever change the course of Scotland's history.
.de
This sequel to *The Pride of Lions* is as much saga as romance, in that Catherine Ashbrooke and Alexander Cameron are already in love and married when this vivid retelling of Bonnie Prince Charles Stuart's bid for the British throne opens. Nevertheless, there's plenty to keep one's interest--sexy lovemaking whenever Catherine and Alex can circumvent the separations imposed on them by the Jacobite rebellion; a moving, all-consuming sub-romance between a loyal servant woman and a burly Scotsman; a mystery concerning Catherine's parentage; and terrific Scottish flavor conveyed through landscape, speech, and colorful historical figures. Detailed descriptions of politics and troop movements, concluding with the Battle of Culloden, give this long, well-written narrative the flavor of an historical novel. The story ends with a confrontation that's both dramatic and surprising.
