Von Noel-Anne Brennan : The Blood of the Land (The Song of the Land Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Blood of the Land (The Song of the Land Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. An Irresistible Plot and Finely Crafted Characters! Von Julia Schneider After being converted to Fantasy by Brennan's first book "Sword of the Land" I found this to be a wonderful sequel that leaves me crying out for more! Rilsin is a truly believable character who is real, intense yet emotional enough to make her a true heroine that you find yourself fighting right along side her for her beloved Saeditin. The world of the Saeditin that Brennan created is a world of many stories. I sincerely hope Brennan creates many more stories in the world of the Saeditin. There are many characters whom I would love to read more details about their lives and how they too form and shape the Saeditin. Rilsin is a powerful character, but there are many other characters in Brennan's Saeditin series that can be developed into stories of their own. An extremely exceptional read! Recommended for readers of all genres - not just fantasy, this book has it all: Fantasy, History, Suspense and Romance. And Brennan's cleverly crafted "paganism" which she molds into the realm of the Saeditin. I definitely am looking forward to more books by this fabulous new author!

Kurzbeschreibung With her baby kidnapped, her lover missing, and her deposed cousin making war against her, Rilsin's only hope lies in a princess who may be her salvation--or an enemy worse than any she has ever encountered. Pressestimmen A wonderfully strong female protagonist. (Booklist) Kurzbeschreibung With her baby kidnapped, her lover missing, and her deposed cousin making war against her, Rilsin's only hope lies in a princess who may be her salvation--or an enemy worse than any she has ever encountered.
