KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Pieces MissingVon FranziskaI love the book and the easy flow of the writing, but there are pieces of the text missing in the

Kindle version. Since I need it for university, it's very annoying. Therefore only three stars for this version.

KurzbeschreibungMany of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

ber den Autor und weitere MitwirkendeHenry De Vere Stacpoole (9 April 1863 12 April 1951) was an Irish author, born in Ireland in Kingstown (now Dn Laoghaire). His best known work is the 1908 romance novel *The Blue Lagoon*, which has been adapted to film on at least four occasions. He published using his own name and sometimes the pseudonym Tyler De Saix. After a brief career as a ship's doctor, which took him to numerous exotic locations in the South Pacific Ocean, later used in his fiction, he became a full-time writer, able to live comfortably after the success of *The Blue Lagoon*. He lived in the Essex countryside in England before relocating to the Isle of Wight in the 1920s, where he remained until his death. He was buried at St Boniface Church, Bonchurch on the Isle of Wight in 1951.
