funny. Finally a fresh character who's zany and ballsy as well. Think Lucille Ball meets Laura Croft. Natasha is a female bodyguard who is hired to protect a champion pug who's received a death threat. But the great lure for Natasha is that she has been asked to find out who is threatening the dog. All the great characters from book #1 are along for this wacky ride, and Natasha's and Striker's relationship is heating up big-time. One professional review site rated this book as an incredibly good read and sultry as well. I agree. The Bodyguard and the Show Dog has everything a reader could ask for: romance, mystery, suspense, along with plenty of action, great characters and dialogue that's sweet! Wish I could preorder #3! 0 von 1 Kunden fanden die folgende Rezension hilfreich. The Perfect Holiday Gift This Year !! Von Helena Gardener I wanted something different to buy this year for my friends (who by the way) all enjoy reading a good story every now and again. This book is perfect for giving my friends exactly what they like... A Great Read! Maybe your friends would enjoy a great book like this as well? I suggest you order plenty of copies of this book because I have no doubt this book will sell out quickly!

Kurzbeschreibung Bodyguard Natasha Chamberlain thinks guarding popular English rock star Giki during a tour of the Southern states will be easy and fun. She couldn't be more wrong. In no time at all, she finds herself bogged down in Giki's crazy world of sex, drugs, shoplifting and an uncontrollable sweet tooth. If that's not bad enough, Giki is being hunted by a ruthless cyberstalker, intent on putting an end to her career. When Natasha gets shot after the first concert, her fiance Jonce Striker steps in. Determined to keep Natasha safe, he sends his best men, Pit and Bigun, to watch over her. Striker wants Natasha to marry him and give up her dangerous line of work but he's having trouble convincing her of that fact. Natasha's torn between her love for Striker and her desire to do her job. Will she give in to Striker's demands and forget about her profession? Or will she stay with Giki and do whatever it takes to protect her? The choice is obvious to Natasha but will she live to regret it?
