A great, fast paced story...Von Sandra TaylorThis was a good and interesting read, but there was still one or two things left unsaid. I would have enjoyed more depth and background information about the relationship. But this is a novella, and maybe this could turnout into a series. It's in need of an editor, there were words missing and so on. The author has talent and I'm looking forward to reading more from him.

KurzbeschreibungTanner never thought he'd be back in Amber Pines or back in Dash's bed. But four years and 1,000 miles wasn't enough distance to make him forget the power of first love. Sure, he spent his time training with one of the world's top Hunters and he's no longer the scrawny teenager he used to be. But now that his former pack is threatened, Tanner is again involved in the dangerous life he thought he left behind. Do Tanner and Dash have a second chance or has his werewolf made his heart as impenetrable as his body? With an all-out battle raging, Tanner must find his place in the new Amber Pines or be shut out forever. If you're looking for Teen Wolf meets Queer As Folk, you'll love this book.KurzbeschreibungTanner never thought he'd be back in Amber Pines or back in Dash's bed.
