Gripping!Von Krisi Schllkopf - Wurm sucht BuchBefore reading this review, I want you to know that this book is not

an ordinary Science Fiction novel - it is so much more. When the book was first recommended to me, I was skeptical. To be honest, I am more into reading Fantasy, historical fiction and YA books. But still, I wanted to give it a try. Just by reading the blurb, I was captivated: How wrecked does the author consider humanity to be for a scenario to take place like this? After reading about a hundred pages, I couldn't put it down. I loved this world of uncertainty and dangers, e.g. nuclear bombs. What do you do facing apocalypse? I think this book is more of a social experiment than a normal book. Even after turning the last page, I couldn't stop thinking about what I might have done. Isn't that what a good book is all about? To make us think? The characters are authentic and as down-to-earth as people losing their entire world could possibly be. I couldn't pick a favorite character, to be honest, because the persons seem to be representing social groups not individual characters. But still, I found every single one of them fascinating. Patrick Lee has a unique style of writing and I think he is one of the few who are truly able to feel what their characters are going through. This is why the words aim right at your heart. Truly magnificent! **Fazit** I've never been as excited about a Sci-Fi series the way I am about Patrick Lee's "The Breach". I can't wait to read the sequels. **5 von 15 Kunden fanden die folgende Rezension hilfreich.** Kill them - kill them all! **Von dieleseratz** Vorab: Ich bin ein Vielleser, u.a. im Bereich Krimi/Horror und nicht zimperlich, was Gewaltdarstellungen angeht. Aber was dieser Mchtegernautor hier verbricht, das lt einen schon sprachlos zuruck: Unreflektierte Gewalt, Tote auf jeder Seite, Massenmord in Zrich an Zehntausenden, ohne ein Wort des Bedauerns (und man verlt Zrich ohne zur Rechenschaft gezogen zu werden - das ist amerikanisches Selbstverstdnis par excellence), Massenhinrichtungen, Kehle aufschlitzen... Immer wieder Dialoge, die im Satz enden "Kill them, kill them all" - man wei nicht genau, ob es sich um Freund oder Feind handelt, Hauptsache tot. Der Mensch gilt nichts, nur das eigene berleben. Wobei das ganze Buch unter mangelnder Logik, Lcken, peinlichen Dialogen, sinnfreier Gewalt leidet, so dass leider die gute Grundidee mit den auerirdischen Artefakten absolut zweitrangig ist. Ab der Hlfte gibt es nur noch Gewalt - man erwartet fast, dass Blut aus den Seiten tropft - und das letzte Restchen Story bleibt auf der Strecke. Eine selten unglaubliche, hastige, unlogische Auflsung beendet die Qual. Ich hoffte auf einen spannenden Science Fiction und was ich las was billigster Groschenromanrams, inklusive Verherrlichung und Gutheien von jeglicher Gewalt, was Anbetracht der vielen Amoklufe, gerade in den Staaten, fr Europen schon sehr grenzwertig erscheint. **Fazit**: Ungeniebar. **1 von 1 Kunden fanden die folgende Rezension hilfreich.** **Awesome series!!!** **Von C. Nth** I read a lot. I love action, sci-fi and horror stories and movies. I love the x-files and fringe. I like the twilight zone ad the outer limits. These books, starting with number one "The Breach" are the best books I've discovered in the last 10 years. Patrick Lee catapulted himself to my number one writer with this fantastic action packed story. It's amazing what kind of ideas he included in this story... and of course how good his main characters are working. You always feel like watching a really good action-sci-fi movie while reading. I will start rereading the three books soon and that's the best rating I can give because I normally don't do this. Can't wait for Patrick Lee's new series! **A note to German readers: The book "Dystopia" you can see in a lot of stores this days is the SECOND novel from this series!**

**Kurzbeschreibung** Audacious and terrifying and uncannily believable. Lee Child New York Times bestselling author of the Jack Reacher series, Lee Child, was blown away by The Breach and you will be, too! A novel of unrelenting suspense and nonstop surprises, The Breach immediately rockets author Patrick Lee into the V.I.P. section of the thriller universe. A treat for Jack Bauer (24) fans and X-Files aficionados, it is a white-knuckle roller-coaster ride that combines the best of Dean Koontz and Michael Crichton with a healthy dollop of Indiana Jones thrown into the mix the perfect secret agent/government conspiracy/supernatural adventure. **Pressestimmen** Audacious and terrifying-- and uncannily believable.
